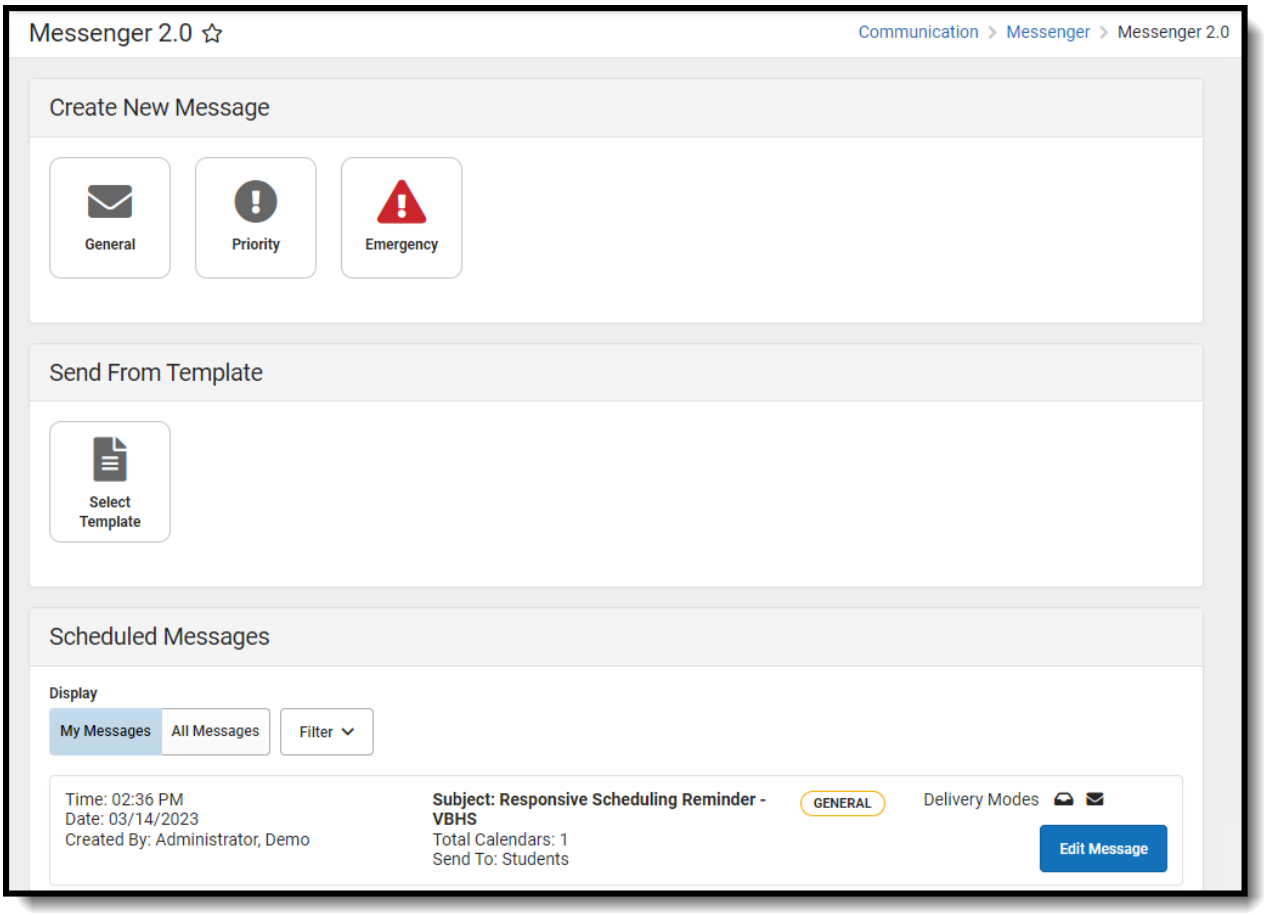
Tool Search: Messenger 2.0

Because of the ongoing development, Messenger 1.0 will continue to be available until feature comparability is reached.

As Campus Messenger continues to undergo an extensive top-to-bottom redesign, Messenger 2.0 is ready and available for any district to use. Messenger 2.0 consolidates many classic Messenger tools to optimize user experience and enhance Messenger performance. With a refreshed look, Messenger provides users with the added ability to send messages from mobile devices to Students, Parents and Staff. In addition, we've added navigation buttons to provide easy movement back and forth between screens when creating a message.



See the Messenger 2.0 Tool Rights article for information on available tool rights.
