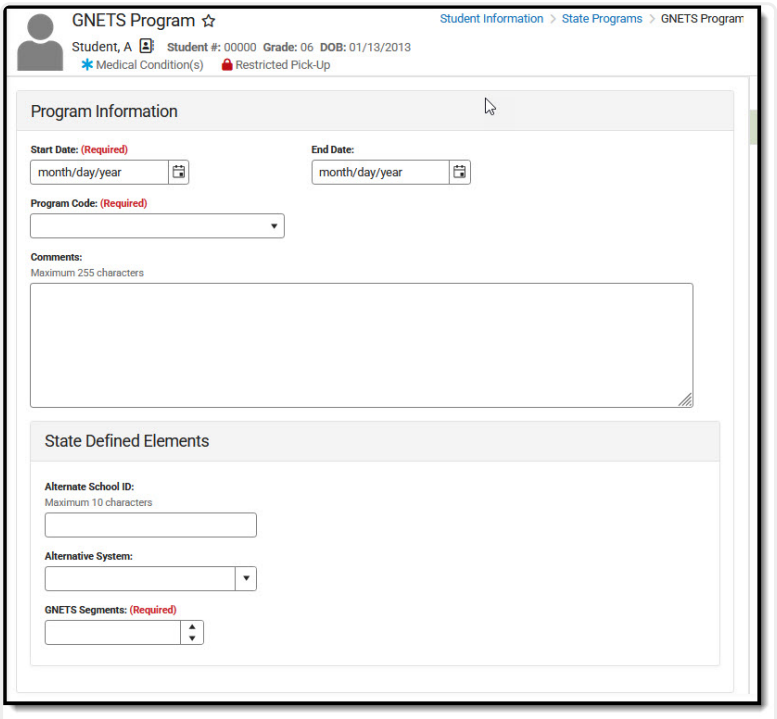
Tool Search: GNETS

The Georgia Network for Educational and Therapeutic Support (GNETS) is a service available to consider when determining the least restrictive environment for students with disabilities, ages 5-21. GNETS services is an option that prevents children from requiring residential or more restrictive placement. Students receiving services through GNETS are referred by their local school system through the Individual Education Program (IEP) process. GNETS provides comprehensive educational and therapeutic support services to students who exhibit intense social, emotional and/or behavioral challenges with a severity, frequency or duration such that the provision of education and related services in the general education environment has not enabled him or her to benefit educationally based on the IEP.

Creating a New GNETS Record

Select **New** to create a GNETS record for a student.



Georgia GNETS Program Editor

GNETS Program Editor Fields

Field	Description	Database Location Ad Hoc Inquiry	Notes
Start Date *Required*	Indicates the date on which GNETS services begin.	SupportEnvironment.**startDate**	
End Date	Indicates the date on which GNETS services ended.	SupportEnvironment.**endDate**	
Program Code *Required*	The Program Type identifies the type of program being reported for each record's activity.	SupportEnvironment.**programType**	See the Program Tyoe Codes table belows for a list of codes and defintions.

Program Type Codes

Code	Description	Definition
02A	GNETS Center Based	A separate program that operates as a standalone and does not afford students the opportunity to access age-appropriate non-disabled peers during the school day.
02B	GNETS School Based	A program that allows student access to non-disabled peers during the school day.

State Defined Elements

Field	Description	Database Location Ad Hoc Inquiry	Notes
Alternate School ID	Identifies the school associated with the selected student's GNETS program.		
Alternative System	Use this field to select the district from which the student receives services.		

Field	Description	Database Location Ad Hoc Inquiry	Notes
GNETS Segments *Required*	This field is used to identify the highest number of daily segments (1-6) a student received in a GNETS program during the school year. GNETS Segments is a required field and MUST be populated.	SupportEnvironment.segments Student > Learner > State Localized Elements > gnetsSegments Student > Learner > All Enrollments > State Localized Elements > gnetsSegments	Users may manually enter the highest number of segments for the student. The entry must be a number 1 - 6.

District Defined Elements

Users may use the District Defined Elements space to track GNETS-related data. Data tracked here is not used for state reporting and is used only for district tracking purposes.

Editing an Existing GNETS Record

Users may edit an existing GNETS record. To edit a record, select the appropriate record and make the desired edits to the record.
