Academic and Graduation Programs: Getting Started

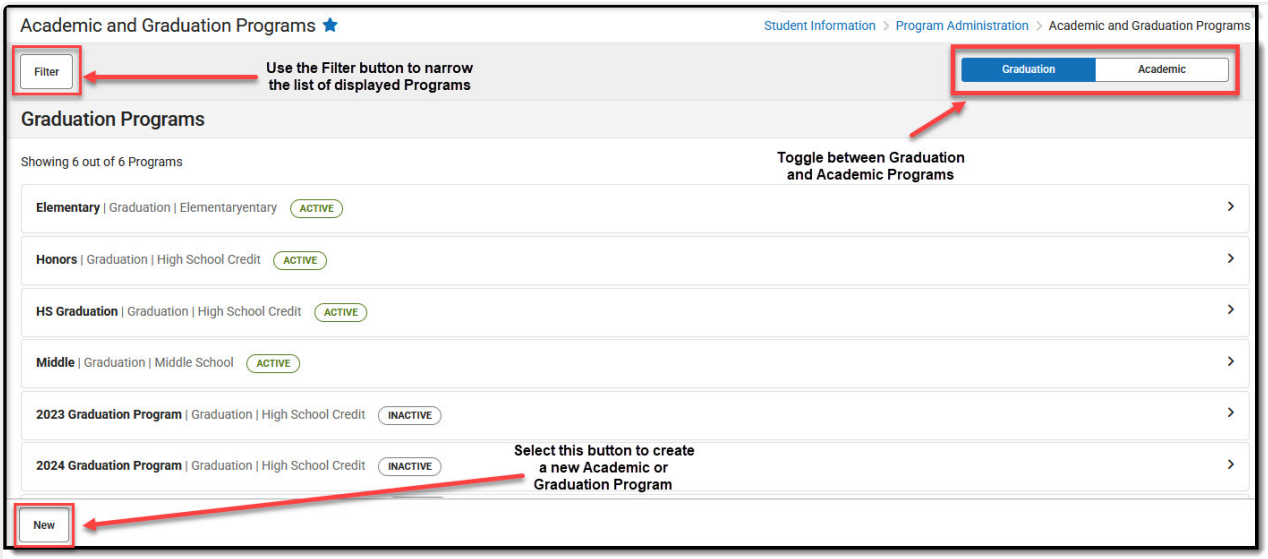
Last Modified on 08/20/2026 9:14 am CDT

Student Information > Program Administration > Academic and Graduation Programs

The Academic and Graduation Programs tool contains the Academic and Graduation Programs that can be assigned to students in a district.

- **Academic Programs** define requirements for completion of the selected Academic program, including specific course requirements and any assessments/certificates needed for program completion.
- **Graduation Programs** are used to show a student's progress toward graduation based on the requirements entered for the program.

See the Academic and Graduation Programs (State Edition) article if you are a State Edition user (currently North Carolina only).



Academic and Graduation Programs are created and maintained here for use within the district.

From this screen, users may:

- Toggle between Academic and Graduation Programs
- Filter the list of listed programs
- Create new programs to assign to students.

Course setup considerations

In order for the status of future planned courses in a Course Plan to display correctly when reviewing student Progress, the Course Information Term field must be populated.

Setup	Display
Course Information - populate Terms field with the number of terms the course meets	 *Course Information - Terms*
Academic/Graduation Programs - add the course to the Course Plan Template	 *Graduation Program - Course Plan Template*
Progress - future courses (courses not yet taken) display as Planned	 *Progress (Student)*
