Rx Pack - Campus.2643

Last Modified on 11/24/2026 3:07 pm CST

The following corrections are included in Rx Packs for October 2026. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four-week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.2647 pack unless otherwise noted. Rx Packs may occasionally skip a release number for Rx builds that were not made generally available.

Below is a list of all Rx Packs for Campus.2643 and the date of availability:

- Rx Pack Campus.2643.16 - Friday, November 20, 2026
- Rx Pack Campus.2643.15 - Wednesday, November 18, 2026
- Rx Pack Campus.2643.14 - Friday, November 13, 2026
- Rx Pack Campus.2643.13 - Wednesday, November 11, 2026
- Rx Pack Campus.2643.10 - Monday, November 9, 2026
- Rx Pack Campus.2643.9 - Friday, November 6, 2026
- Rx Pack Campus.2643.8 - Wednesday, November 4, 2026
- Rx Pack Campus.2643.7 - Friday, October 30, 2026
- Rx Pack Campus.2643.6 - Wednesday, October 28, 2026
- Rx Pack Campus.2643.5 - Friday, October 23, 2026
- Rx Pack Campus.2643.4 - Wednesday, October 21, 2026
- Rx Pack Campus.2643.3 - Wednesday, October 21, 2026
- Rx Pack Campus.2643.1 - Monday, October 19, 2026

See the Release Pack Campus.2643 - October 2026 article for a full list of cases included in the Campus.2643 release.

Rx Pack Campus.2643.16

Localization - Colorado

Colorado - SPED IEP Interchange December Exit Date Update (SIS-203610)

The SPED IEP Interchange Student Participation December extract now correctly reports the Date of Exit from Special Education that is entered on the enrollment record when a student has a locked IEP with an end date after the report effective date. If the Special Ed Exit Date on the enrollment record is blank, the field reports a value of 00000000.

Path: Reporting > CO Data Pipeline SPED IEP Interchange

Localization - North Carolina

North Carolina - MEP Allotment Collection Extract updates (SIS-203672)

Reporting logic for the A1 and A2 reporting periods for the MEP Allotment Collection extract no longer include a check on the calendar type associated with a student's enrollment (summer school enrollment vs. non-summer school enrollment). Instead, the Migrant enrollment record identifies whether it is a summer enrollment.

Path: Reporting > NC State Reporting > NC MEP Allotment

North Carolina - PMR Best 1 of 2 Report for State Edition (SIS-204225)

The PMR Best 1 of 2 Report is now available in State Edition (SE), allowing state-level users to generate school-level membership comparison data across districts and schools.

- Generate the report by selecting School Month Sequence 2 under Report Options in the PMR Extract Editor.
- Report data generates only for schools that have completed the submission workflow for the PMR Summary Report for Month 2.
- When Review is selected, Average Daily Membership (ADM) snapshot data from PMR Month 2 is compared against PMR Month 1R.
- For each grade level column, the report displays the larger ADM value between PMR Month 1R and PMR Month 2.
- One row per school reports for the selected calendar(s). When multiple calendars are selected, results are sorted first by PSU, then by School Number.

Path: Reporting > NC State Reporting > NC PMR Collection

Localization - Ohio

Ohio - Student Detailed Attendance (FM) and HB96 report fix (SIS-204273)

An issue in which the Attendance checkbox on the Course Information tool was affecting the Ohio Student Detailed Attendance (FM) and HB96 Student Chronic Absenteeism reports was fixed.

Path: Reporting > OH State Reporting > OH Extracts > Student Detailed Attendance (FM), Reporting > OH State Reporting > HB410 - HB96

Rx Pack Campus.2643.15

Localization - Colorado

Colorado - Special Education Child updates for 26-27 (SIS-203865)

The Special Education Child extract has been updated to align with 2026-2027 file layout requirements. The extract now includes South Asian and Middle Eastern and North African race

fields.

In addition, the 2022-2023 and 2023-2024 format options were removed. Format options for 2025-2026 and 2026-2027 can be selected.

Path: Reporting > CO Data Pipeline > SPED IEP Interchange > Special Education Child

Localization - Montana

Montana - Special Ed IEP fix (SIS-204060)

An issue in which users were unable to print the Prior Written Notice section of the Montana Individual Education Plan was fixed.

Path: Student Information > Special Ed > Special Ed Documents

Localization - North Carolina

North Carolina - PMR Student Day Detail and Average Daily Attendance logic update (SIS-203750)

A new attendance determination, called Absent OSS, has been added to the Average Daily Attendance logic used in PMR. A student is considered Absent OSS when their present minutes are less than 50% of the instructional minutes for the day and attendance code 3 is applied at least once.

The Student Day Detail Report now includes the Absent OSS identifier to provide additional insight into attendance determinations. The Total Days Absent count in the ADA Summary Report has been updated to include the Absent OSS determination.

Path: Reporting > NC Reporting > NC PMR

North Carolina - Student Day Detail and ADA Logic Update (SIS-203831)

The Student Day Detail and ADA Summary reports now use the enrollment start date instead of the enrollment effective date. The FATAL-26 validation correctly identifies students absent on their first day of enrollment.

Path: Reporting > NC State Reporting > NC PMR

Rx Pack Campus.2643.14

Security

Identity management cyptographic error preventing logins using Campus as the IDP (SIS-203722)

A cryptographic error in identity management was preventing users from logging into systems using Campus as the IDP. This issue has been corrected.

Path: User Management > Settings > SAML Identity Provider Configuration

Localization - Arizona

Arizona - Ed-Fi - Student School Attendance Events resource - Period Structures error (SIS-202969)

The Student School Attendance Events resource now triggers correctly for schools using period structures where periods overlap or begin before the previous period ends. Logic has been updated to handle null values in attendance excuse fields, preventing errors during data synchronization.

Path: Ed-Fi

Rx Pack Campus.2643.13

Food Service

Duplicate transactions (SIS-203928)

An issue where re-queuing transactions from different days created duplicate entries in the history and daily transaction tables has been resolved.

Path: Point of Sale

Rx Pack Campus.2643.10

Localization - North Carolina

North Carolina - PMR editor display (SIS-203966)

The PMR extract has been updated to display the report editor correctly.

Path: Reporting > NC State Reporting > NC PMR

Rx Pack Campus.2643.9

Localization - Michigan

Michigan- MSDS-General Collection update (SIS-203734)

The General Collection extract has been updated to ensure that students with multiple Tribal Affiliation records do not cause subsequent students in the report to have data omitted. Previously, multiple records on the Tribal Affiliation tool caused fields such as Resident LEA Number, Student Resident County, Ethnicity, and Tribal Affiliation Status to appear blank for other students in the extract.

Path: Reporting > MI State Reporting > MSDS

Localization - North Carolina

North Carolina - PMR ADM by District (State Edition only) Report (SIS-194500)

The PMR Extract now includes a report for State Edition users only, called ADM by District Rollup, that provides a summary total of Average Daily Membership by Grade Level for in-membership students within the PMR Month.

Path: Reporting > NC State Reporting > NC PMR

North Carolina - PMR Validation Performance Improvements (SIS-202673)

Performance for the Principal's Monthly Report validations has been optimized to reduce processing time and prevent errors in large districts. Additional tuning has been done for the following FATALs to ensure reports complete successfully within the batch queue:

- FATAL-06
- FATAL-13
- FATAL-26

The reporting population for FATAL-06 now references standard reporting population functions and a bug in FATAL-13 that caused failures when selecting a large number of calendars has been resolved.

Path: Reporting > Data Validations

North Carolina - GRS Summary sort order update (SIS-202961)

The GRS Summary Report now displays sort order and group totals in the same manner as the PMR Summary. Pre-kindergarten (PK) grade levels and group totals are now separated from the Kindergarten through grade 13 (KG-13) data.

Path: Reporting > NC Reporting > NC PMR

North Carolina - Updates to initiating the PMR Report (SIS-203811)

Users are no longer permitted to initiate the same PMR report configuration more than once while a previous request is still processing or queued in the Batch Queue. Action buttons are disabled until the current report generation completes or returns an error. This improves system performance and prevents the Batch Queue from becoming overloaded with duplicate report requests.

Path: Reporting > Nc Reporting > NC PMR

North Carolina - PMR Summary and GRS Summary Submission Update (SIS-203825)

Updates have been made to the PMR Summary and GRS Summary submission process to improve accuracy and reliability. If a problem occurs during data sync to State Edition, the submission is reversed, and an error message is displayed to the user.

The synchronization process has also been updated to send only records marked as submitted to State Edition. This prevents records that have not yet been approved from being included during resynchronization.

Path: Reporting > NC Reporting > NC PMR

Rx Pack Campus.2643.8

Student Information

Student picture mass upload fails (SIS-203350)

Mass student picture uploads no longer fail partway through the import process when using network storage. The system now correctly manages file connections during bulk imports, ensuring that all images are processed successfully without interruption.

This update also resolves an issue where existing student pictures became unreadable or failed to display after an upload attempt. Student images now remain accessible and visible across the application following mass upload activities.

Path: Student Information > General Student Administration > Photo import

Localization - California

California - District Assignment Type (SIS-200808)

The District Assignment Type field now displays inactive values when they were previously selected. This update ensures that historical data remains visible in the user interface even after codes are inactivated. Inactive values are indicated with asterisks and cannot be selected for new records.

Path: Census > People > Staff > District Assignments

Localization - Kentucky

Kentucky - Preschool tool Ad hoc fields fix (SIS-203792)

An issue was fixed in which the Kentucky Preschool Ad hoc fields preSchoolKY.federalPoverty and preSchoolKY.headStartEnhanced were unavailable in Ad hoc.

Path: Student Information > State Programs > Pre-School; Reporting > Ad hoc Reporting > Filter Designer

Localization - Massachusetts

Massachusetts - Special Ed IEP objectives fix (SIS-203717)

An issue was fixed that prevented Massachusetts users from adding objectives to their goals in the Individual Education Plan.

Path: Student Information > Special Ed > Special Ed Documents

Rx Pack Campus.2643.7

Localization - Arizona

Arizona - Ed Fi - Student Homeless Program Associations sending End Date incorrectly (SIS-203091)

Logic for reporting the end date on Student Homeless Program Associations has been updated to send the earliest date between the Homeless Program End Date and the Enrollment End Date. If neither date is present, the end date is excluded from the record. For students with a chain of enrollments, the end date from the last enrollment in the chain is used. This resolves validation errors where the last instructional day of the calendar was incorrectly reported as the program end date.

A resync of the Student Homeless Program Associations resource is required for this update.

Path: Ed-Fi

Localization - Pennsylvania

Pennsylvania - PIMS Staff Student Subtest - Teacher-Student performance update (SIS-203506)

The PIMS Extracts PIMS Staff Student Subtest - Teacher-Student template was updated to improve performance during report generation.

Path: Reporting > PA State Reporting > PIMS Extracts PIMS Staff Student Subtest - Teacher-Student

Rx Pack Campus.2643.6

Food Service

Unexpected server voids on à la carte transactions (SIS-203582)

Resolved an issue that could cause server voids to be generated unexpectedly for certain à la carte transactions.

Path: Point of Sale

Rx Pack Campus.2643.5

Localization - Massachusetts

Massachusetts – SIF Student School Enrollment update (SIS-203524)

The code for the MyCapParticipation element in the Student School Enrollment object has been updated to report the participation record associated with the student.

The SP grade level has been included in the MyCapParticipation element for reporting.

Path: System Settings > Data Interchange Administration

Localization - North Carolina

North Carolina - LCS reporting population updates (SIS-198290)

The LCS Collection has been updated to exclude Cross-Site courses or sections hosted at a different school.

Path: Reporting > NC State Reporting > NC LCS Collection

North Carolina - LCS Knowledge Base article (SIS-198552)

The link to the LCS Knowledge Base articles has been updated to correctly open the available LCS articles, instead of returning a Page Not Found error.

Reporting > NC State Reporting > NC LCS Collection

North Carolina - LCS Snapshot Date (SIS-198856)

Snapshot date processing has been improved so LCS reports generate consistently, regardless of local computer date formatting or regional settings.

Path: Reporting > NC State Reporting > NC LCS Collection

North Carolina - LCS Report Generation (SIS-199093)

Schools with long department names could encounter a batch queue error when generating LCS reports because the Teacher Duties value exceeded the allowed character length. This issue has been corrected.

Path: Reporting > NC Reporting > LCS Collection

North Carolina - LCS Collection - New error messages, Logic updates (SIS-199554)

The following updates have been made to the LCS Collection:

Enhanced Zero-Result Messaging

New validation messages have been added to help users understand why an LCS report returns no results.

- When a school is not required to submit a report because it does not meet LCS reporting population requirements, the system now displays a message indicating that the school is not required to submit the selected snapshot.
- Messaging has also been added for the K-3 Class Size Average Report when a school does not offer grades K-3.

K-3 Class Size Average Reporting

Schools that offer grades K-3 are now able to complete an official K-3 Class Size Average submission even when no reportable sections qualify for reporting. In these cases, the report can be submitted with Class Size Average data elements set to zero rather than preventing submission.

Program Enhancement Teachers Reporting

Schools can now complete an official Program Enhancement Teachers submission when no courses or sections qualify for reporting. When no reportable Program Enhancement Teacher records exist, the report may still be submitted with the applicable Program Enhancement Teacher data elements left blank.

Path: Reporting > NC Reporting > NC LCS Collection

North Carolina - Updates to Academic Program Pathway Codes, Cluster Codes (SIS-202703)

CTE Pathway Codes and Cluster Codes have been updated to align with the latest North Carolina Career and Technical Education (CTE) pathway requirements.

Path: Student Information > Program Administration > Academic and Graduation Programs > Program Details > Pathway Code, Cluster

Localization - Pennsylvania

Pennsylvania - PIMS Student Template and Student Snapshot updates (SIS-202769)

A new dropdown, Income Status, was added to the FRAM Eligibility tool. Logic for several data elements on the PIMS Student Template and Student Snapshot Template was updated for Pennsylvania.

Path: FRAM > Application Processing > Eligibility; Reporting > PA State Reporting > PIMS Extracts

> Student Template/Student Snapshot

Rx Pack Campus.2643.4

Messenger

Duplicate records when using sub-reports in Messenger 2.0 (SIS-190421)

Resolved an issue where records from a sub-report were duplicated when the same sub-report was used multiple times within a single message.

Path: Communication > Messenger > Messenger 2.0

Rx Pack Campus.2643.3

Localization - California

California - CALPADS Course Section update for Teacher Type 27 (SIS-203013)

The CALPADS Course Section extract has been updated to correctly report teacher job class codes.

Previously, the report included only sections associated with a Teacher Type 27 assignment. The report now also evaluates the ***Itinerant Teacher Assignment*** and ***Pull-Out/Push-In Teacher Assignment*** fields in Section Information when set to Yes.

For compatibility and historical reporting support, the report continues to check for Teacher Type 27 assignments as part of the reporting logic.

Path: Reporting > CA Reporting > CALPADS Course Section

Localization - Maine

Maine – SIF Unity Student Participation and Student School Enrollment updates (SIS-201847)

The Student Participation object has been updated to send when the Start and End Dates of the Programs are valid and the student's Enrollment Start Date is within the Zone Scope.

The bug related to EL Service Type extended elements reporting N when MLStartDate is not null has been fixed for the Student School Enrollment object.

Path: System Settings > SIF Unity

Localization - North Carolina

North Carolina - PMR Validations for WARN-6/FATAL-26 plus year-long validations (SIS-202428)

Updates have been made to first-day attendance validation logic and PMR reporting to improve identification of students who are absent on their first instructional day of enrollment and to align

validation processing with current reporting standards.

First Day Attendance Logic Updates

- Logic has been updated to evaluate a student's first instructional day of enrollment rather than the enrollment start date when the start date falls on a non-instructional day.
- Students whose enrollment begins on a non-instructional day (such as a weekend) are now evaluated based on their first actual instructional day.
- An Enrollment Start Date column has been added to the report layout.
- The First Instructional Day value now displays the first instructional day of enrollment rather than the enrollment start date.

FATAL-26 Validation Updates

- FATAL-26 validation functionality has been resotred; the previous WARN-06 behavior has been retired.
- FATAL-26 has been updated to use the same reporting population and attendance calculation logic as the PMR Student Day Detail report. The description now reads "Students who are marked absent for more than 50% of the instructional minutes on the first date of their enrollment."
- Students identified as either Absent Att. or Absent Sch. for more than 50% of instructional minutes on their first instructional day of enrollment are now flagged.

Report Layout Updates

- The Student Name field is now two separate columns: Last Name and First Name.
- The Student Day field is now Instructional Minutes.
- The Absent Minutes field is now Present Minutes.
- The Percent Absent field is now Percent Present.

Validation Group Changes

- The M2 Validation Groups to include M1 validation rules.
- Year-Long (YL) PMR Validation Groups and Rules have been inactivated to align validation processing with current PMR requirements.

Path: Reporting > NC Reporting > PMR; Reporting > Data Validations

North Carolina - PMR Summary verified data and extract editor (SIS-203134)

When selecting Review on a previously submitted PMR Summary, the original submission verification information was overwritten in both District Edition and State Edition. This has been corrected.

Additionally, State Edition PMR Summary behavior has been updated so the Generate button is unavailable, and the Review option displays a combined PMR Summary for all districts/calendars that have submitted data for the selected school month without listing districts or calendars that have not completed submission.

Path: Reporting > NC Reporting > NC PMR

North Carolina - PMR Performance Improvements (SIS-203148)

Performance enhancements have been made to PMR generation processing to reduce report execution times and improve scalability for large districts.

Path: Reporting > NC Reporting > NC PMR

North Carolina - PMR Summary - Generate, Review, Submit Verification (SIS-203196)

An issue that prevented the Generate, Review, and Submit Verification actions from being available for the PMR Summary Report when the district database contained more than 2,100 calendars has been resolved. Users can now generate, review, and submit PMR Summary reports based on the selected school month and submission window, regardless of the total number of calendars in the database.

Path: Reporting > NC Reporting > NC PMR

North Carolina - PMR Summary - Submitted By, SubmittedTimestamp (SIS-203436)

The PMR Summary Extract now includes Submitted By and Submitted Timestamp fields to provide greater visibility into the submission process by capturing who officially submitted a PMR Summary and when the submission occurred.

When users select Submit Verification, the user who submitted the PMR Summary and the date and time it was submitted are captured. Submission details are stored and retained with the PMR Summary record for audit and reporting purposes.

The following updates have also been made to the report layout:

- Verified By is now Reviewed By
- Verified Time is now Reviewed Time

To improve readability, the following audit-related fields have been moved to the far right side of the extract output:

- Generated By, Generated Time
- Reviewed By, Reviewed Time
- Submitted By, Submitted Time

Path: Reporting > NC Reporting > NC PMR

Localization - Rhode Island

Rhode Island - Enrollment Census Attendance Report updates (SIS-201250)

The Enrollment Census Attendance Report has been updated as follows:

- Attendance code grouping and reporting logic has been updated for Present, Absent, Tardy, Early Dismissal, and Attendance Not Required attendance codes.
- The 1A attendance code is now treated the same as a blank attendance code for reporting purposes. Records are not generated when only 1A or blank attendance codes exist for a reporting period.
- A new MET_MINUTES_REQ field has been added to the report layout. Values are determined using reported attendance records, Group 5 attendance codes, and instructional minutes criteria. This field returns:
  - Y when instructional minute requirements are met
  - N when instructional minute requirements are not met
  - NA when instructional minute requirements do not apply
- Reporting logic now relies on the attendance data entered by administrators. Incorrect or incomplete attendance codes are reported as entered and are not automatically converted or corrected during reporting.

To support accurate reporting of historical attendance records, a one-time script to update attendance excuse records is included with this release. Attendance excuse records are updated when:

- The attendance excuse State Code is blank.
- The selected local attendance code matches an existing code in the attendance excuse State Code dictionary.

This update aligns older rolled-calendar attendance excuse records with current reporting requirements while preserving existing reporting behavior.

Example: If the local attendance code 2B is selected and the State Code is blank, an attendance code of 2B is automatically assigned when a matching State Dictionary entry exists.

Path: Reporting > RI Reporting > Enrollment Census Report > Attendance

Rx Pack Campus.2643.1

Localization - California

California - CALPADS Staff Assignment, Staff Demographics updates to report correct Job Class Codes (SIS-202928)

The CALPADS Staff Assignment and Staff Demographics extracts have been updated to correctly report the new Job Class Codes of 13 and 14, assigned on the staff person's District Assignment record.

Staff Assignment was also updated to report the recently updated list of Non-Classroom Support

Codes.

Staff Demographics was also updated to correctly report staff with District Assignment Types of 13 and 14 when a Previous Submission Date is entered on the report editor. Note that district assignments with an end date on the Previous Submission Date are no longer included in the extract.

Path: Reporting > CA Reporting > CALPADS Extracts

Localization - Virginia

Virginia - Positions and Exits Collection update (SIS-203147)

For the Position Code, all valid position codes now report on the B, C, and D records. Codes 140, 141, and 142 now have the Position Type "ADMIN." Any additional Position Types update to blank in the District Assignment tool. The Position Codes themselves will report on the Positions and Exits Collection, but not their Position Types.

Path: Reporting > VA State Reporting > Positions and Exits Collection

Localization - Wisconsin

Wisconsin – Ed-Fi Student School Associations updates for Next Year Grade Level Descriptor (SIS-203054)

The Next Year Grade Level Descriptor mappings have been added to the Student School Associations Resource Preferences.

The logic for the nextYearGradeLevelDescriptor in the Student School Associations resource has been updated to correctly report the override when a grade level is selected.

A resync on the Student School Associations resource needs to be completed with this update.

Path: Reporting > Ed-Fi
