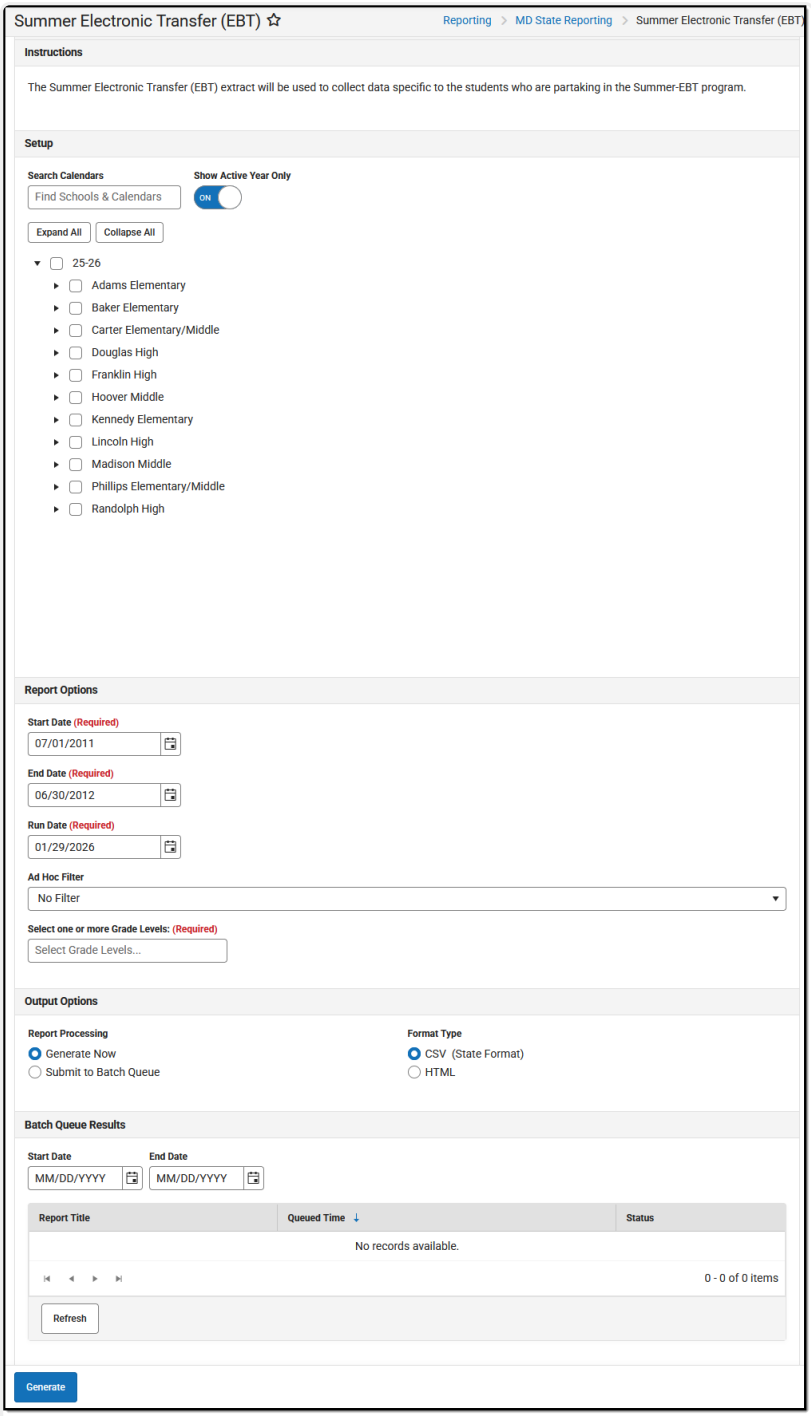
Summer EBT (Maryland)

Last Modified on 11/12/2026 10:04 am CST

Path: Reporting > MD State Reporting > Summer EBT

The Maryland Summer Electronic Transfer (EBT) extract collects data to identify students eligible for the Summer EBT program, also known as Maryland Sun Bucks. The program provides grocery benefits to low-income families with school-aged children during the summer months when schools are closed.

Refer to the Report logic and layout for more information.



Summer EBT Extract Editor

Report editor field descriptions

Field	Description
Setup	

Field	Description
Search Calendars	Use the search field to narrow the list of calendars to select • Mark the checkbox next to the desired school and calendars.
Show Active Year Only	When set to ON, only those calendars for the current school year are available for selection. When set to OFF, all calendars from all school years are available for selection.
Expand All / Collapse All	Toggle this option to show or hide the list of Schools/Calendars.
Report Options	
Start Date *(Required)*	The first date used to return data. Dates can be entered in *mmddyy* format or selected using the calendar icon.
End Date *(Required)*	The last date used to return data. Dates can be entered in *mmddyy* format or selected using the calendar icon.
Run Date *(Required)*	Defaults to the current date.
Ad Hoc Filter	Narrow report results to students included in the filter you select.
Select One or More Grade Levels	Only students in the selected grade levels who meet the other report requirements are included in the report. The list of grade levels includes only those that are in the selected calendar.
Output Options	
Report Processing	• **Generate Now:** Report appears in a separate window in the designated format. • **Submit to Batch Queue:** Generate larger reports in the background without disrupting Infinite Campus. The Batch Queue article provides more information about submitting a report to the batch queue.
Format Type	Determines how the extract is generated. • CSV (State Format) • HTML
Batch Queue Results	Displays a list of the batch test items, including the: • Report Title • Queued Time • Status The list can be filtered by entering a date range in the Start Date/End Date fields.

Generate the extract

1. Select the **Calendar(s)/School(s)** to include in the report.
2. Specify the **Start Date, End Date**, and **Run Date**.
3. Optional: Select an **Ad hoc Filter** to narrow the results.
4. Select one or more **Grade Levels** to include in the report.
5. Under Report Processing, select **Generate Now** or **Submit to Batch Queue**.
6. Select the output **Format**.
7. Select the **Report Type**.
8. Click **Generate**.

The report is generated and displayed in the selected format.

Report logic and layout
