Student Information

One record reports for the school of enrollment as of the effective date or the last school enrollment (if there is no enrollment on the effective date).

If the student is enrolled in multiple schools and the flag end date is null or after the effective date, the school of the latest enrollment reports or the last enrollment if the student is no longer enrolled.

If the student is assigned a flag that ends before the effective date but the selected calendars overlap with the start of a new flag, those flags report.

If the student has multiple records with the same flag name with different levels of participation and both flags are active (no end date), multiple records report listing the varying levels of participation and flag start dates.

Primary enrollments report. If there is no primary enrollment, secondary and special education enrollments report. If the student has multiple concurrent enrollments of the same type, the latest enrollment reports.

Students do not report when:

- Their enrollment record is marked as State Exclude or No Show.
- The grade level of enrollment is marked as State Exclude.
- The calendar of enrollment is marked as State Exclude.
