## Data Setup

[Step 1. Add state assessment codes to Custom Attribute Dictionary](#) | [Step 2. Add assessments to Test Setup](#) | [Step 3. Record Test Accommodations for Students](#) | [Step 4. Build an Ad hoc Filter to report students](#)

The RICAS Registration Extract requires the following items to be done prior to generating the extract:

## Step 1. Add state assessment codes to Custom Attribute Dictionary

**PATH:** *System Administration > Custom > Attribute Dictionary*

Verify the State Assessment Codes are listed in the [Attribute Dictionary](#) within the **Test** node. If a code is not listed, click the **Add Row** button to the right and add the codes as they appear in the image below. Make sure the codes are marked Active.

**State Code Dictionary Detail**

Code	Name	Seq	Value	Standard Code	Active
ACCESS	ACCESS	0			X
ALG01	Algebra I	0			X
ALG02	Algebra II	0			X
ELA03	Grade 03 ELA	0			X
ELA04	Grade 04 ELA	0			X

*Attribute Dictionary - State Assessment Codes*

## Step 2. Add assessments to Test Setup

**PATH:** *Assessments > Test Setup > Tests*

Create a New Test for RICAS in the [Test Setup](#) tool. The **Name** field must have some reference to indicate RICAS and the **Test Type** must be marked as **State Test** with the **State Code** of **RICAS**. Other options can be marked as needed, like the score fields and result statuses.

## Step 3. Record Test Accommodations for Students

**PATH:** [Student Information](#) > [General](#) > [Test Accommodations](#)

For those students receiving test accommodations, create a record on the Test Accommodations tab. Click the **New** icon to enter a record of accommodation for each test in which the student requires an accommodation. Enter the required fields of Calendar and Assessment, and select the options for the student's accommodation as needed.

## Step 4. Build an Ad hoc Filter to report students

*This step is optional.*

Create an ad hoc filter for those students who will be taking the RICAS assessment in the [Filter Designer](#). Include at least the student's first and last name, and grade level. If desired, include any accommodation information, just for reference. Accommodation fields are located in Student > Learner > Test Accommodations.

The selection of an ad hoc filter is required when generating the extract.

Ad Hoc Query Wizard - Field Selection

Select fields to use for creating a filter for which logic and output formatting may be applied. Click a field within the All Fields window, or use the Add Function on Fields window, select the field(s) and click the back arrow <-. The output will sequence the fields in the order selected; however, the sequence can be changed.

Ad hoc Filter Setup

## Report Logic

Students included in the selected ad hoc filter are included in the report. Students must have a Test Accommodations record for the selected test.

- Accommodation data reports from the matching Test Code on the report editor to the Test Code from the assessment selected on the Accommodations tab.
- If there is no matching Test Code, no data reports for the student.

Students are not included when:

- Their enrollment record is marked as No Show or as State Exclude.
- They are enrolled in a calendar marked as State Exclude.
- They are enrolled in a grade level marked as State Exclude.

The following must be true in order for a record to report:

- A student must be scheduled into a section of a course with the State Code attached to the Assessment (Scheduling > Course > Assessment).
- Courses must be Active as of the Effective Date on the Extract Editor.
- The Assessment State Code for a course (Assessment > Test Setup > Test Detail > State Code) must match the State Code selected on the Extract Editor.

## Report Editor

The following fields are available for data entry.

Field	Description
-------	-------------

Field	Description
<b>Effective Date</b>	Entered date is used to return only those students who have active enrollments as of that date. Dates are entered in <i>mmddyy</i> format or can be chosen by selecting the calendar icon. This field auto-populates with the current date.
<b>Format</b>	Indicates the format in which the report generates. Options are CSV or HTML
<b>Report Legal Identities</b>	When marked, the student's legal name reports.
<b>Ad hoc Filter</b>	Only those students in the selected filter are included in the results of the extracts.
<b>State Code</b>	Selections indicate what Assessment types are being generated. Options are based on the Assessment State Codes available entered in the Attribute Dictionary.
<b>Calendar Selection</b>	At least one calendar needs to be chosen to generate the report. Calendars can be chosen by active year, by school or by year. The calendar selected in the Campus toolbar is automatically selected.

## Generate the Report

1. Enter the **Effective Date** for the report.
2. Select the desired **Format** for the report.
3. Select **Report Legal Identities**, if desired.
4. Select the desired **Ad hoc Filter** from the dropdown list.
5. Select the desired option(s) from the **State Code** list.
6. Select the desired **Calendar(s)** from which to report students.
7. Click the **Generate Extract** button. The extract displays in the selected format.
