The Minnesota Automated Reporting Student System (MARSS) collects student data required by many areas of the Minnesota Department of Education. MARSS B, the Student File, gathers a broad range of student data, particularly details found in student enrollments.

MN MARSS State Extracts

This tool will extract data to complete the MN State-defined reporting extracts. Choose the State Format to get the file in the state defined file format, otherwise choose one of the several testing/debugging formats.

Report Logic

The MARSS B Extract reports a record for each enrollment in the selected Calendar(s) within the entered Date Range. If the user selects calendar(s) from the year prior to the selected School Year, the report will include the prior year calendar(s) that fall within the Date Range entered.

Students enrolled in a Grade marked as 'Exclude from State Reporting' are not included in the results.

If a student has a State Aid Category of 46 (STATE AID CATEGORY), the following fields report as indicated:

File Naming Logic

If generating the MARSS B extract in State Format, the output file is named as follows:

"B" + 'district' + "." + 'extractPeriod' + 'yearNum'

Format Options

The following formats are available for generating this extract. State Format should be used for data submission to the state, with CSV, XML and HTML formats can be used to test and review data.
