Pre ID Label Extract

This editor will create either the HSPA, EOC Biology, or NJASK Pre ID Labels in either Fixed Width, CSV or HTML format based on the calendar(s) and grade(s) selected. You may also use a saved Ad Hoc Filter for student definition. Match will be done on NJ State ID (SID). Please note that NJASK now includes a Teacher Sort (Column 29) that can be used for sorting labels but must be deleted prior to submission.

Field	Description
<b>Pre ID</b>	Selection indicates which assessment for which the labels will generate.
<b>Effective Date</b>	Entered date reflects the active enrollment date of students. <b>Ad hoc Filter</b>	If a filter is selected (and not a grade level), labels will only generate for students included in the filter.
<b>Format</b>	Determines how the labels will generate.

Field	Description
<b>Include Inactive Students</b>	When selected, inactive students will be included in the extract, regardless of the entered Effective Date.
<b>Calendar Selection</b>	Selection indicates the school calendar that will be used when generating the report.
