**Classic View:** CA State Reporting > CSR J-9 MHA Report

**Search Terms:** CSR J-9 MHA Report

The CSR J-9 Report provides funds to school district for participating schools that reduce class size in Grade 9 English and other Grade 9 courses required for graduation.

*CSR J-9 MHA Enrollment Report*

## Report Logic

Only courses which have more than 50% of students in 9th grade are reported.

## Report Editor

The following fields are available on the report editor.

Field	Description
<b>Report Date</b>	Reports the 9th grade enrollment in the selected departments as of the entered date. Dates are entered in <i>mmdyy</i> format or can be chosen by selecting the calendar icon to choose a date.
<b>Report By</b>	Selection determines how the data report - by department, by course or by section.

Field	Description
<b>Format</b>	The report can only be generated in PDF format.
<b>Select Department, Course or Section</b>	Depending on the Report By option chosen, select either the Departments to include, the Courses to include or the Course Sections to include.

## Generate the J-9 MHA Report

1. Enter a **Report Date** in the provided field.
2. Select the desired **Report by** option.
3. Select the **Format** for the report as PDF. This is the only available format.
4. Select the display options in the window. Based on the Report by selection, this window displays **Departments, Courses** or **Sections**.
5. Click the **Generate Report** button. The report displays in a new window in the desired format.

## J-9MHA Class Size Reduction Report

Date Range: 08/10/2011 - 06/05/2012

Unified District Number: 336  
County Name: ABC County  
11-12 High School Number: 333

Report Date: 09/30/2011

# Report Layout

Data Element	Description	Format	Campus Database	Campus Application
--------------	-------------	--------	-----------------	--------------------

Data Element	Description	Format	Campus Database	Campus Application
<b>Date Range</b>	Dates for which the report was generated. Reports the first instructional day to the last instructional day for the selected calendar.	Date field  DD/MM/CCYY to DD/MM/CCYY	Data not stored	Data not stored
<b>District Name and Number</b>	Name and State County District Number of the reporting district.	Alphanumeric	District.name District.number	System Administration > Resources > District Information > State District Number
<b>County Name</b>	Name of the county in which the reporting district resides.	Alphanumeric	District.county	System Administration > Resources > District Information > County
<b>Name and Number of Reporting School</b>	Name and state school number of the reporting school.	Alphanumeric	School.name School.number	System Administration > Resources > School > Name, Number
<b>Department</b>	Name of the department selected or, in multiple courses/sections are chosen, the department to which the course or section belongs.	Alphanumeric	Course.department	Scheduling > Courses > Course > Department

Data Element	Description	Format	Campus Database	Campus Application
<b>Enrollment of the largest participating class</b>	Average enrollment value from the section that has the highest average enrollment when calculated for each section.	Numeric	Calculated, value not stored	Calculated, value not stored
<b>Course Name</b>	Name of the course selected for reporting.	Alphanumeric	Course.name	Scheduling > Courses > Course > Name
<b>Participating Classes</b>	Number of sections for the course above that were selected for reporting. When reporting by section, one participating class is reported for each section selected.	Alphanumeric	Calculated, value not stored	Calculated, value not stored
<b>Average Monthly Enrollment</b>	Average number of students enrolled in all chosen sections of a course.	Numeric	Calculated, value not stored	Calculated, value not stored

Data Element	Description	Format	Campus Database	Campus Application
<b>Average Students per Participating Class</b>	<p>Average number of students per section. Sum of the number of students enrolled on each instructional day, divided by the total number of instructional days.</p> <p>Total number of instructional days equals the number of days from the first instructional day the course is scheduled to the last instructional day the course is scheduled.</p>	Numeric	Calculated, value not stored	Calculated, value not stored
<b>Number of Month (Cumulative)</b>	<p>Total number of calendar months the sections reported were implemented. For each section, the number of months the section was implemented. If a section was implemented from Aug. 31 to Nov. 1, that is 4 months. All months implemented are totaled for all sections reported, but cannot be greater than twelve times the number of sections reported.</p>	Numeric	Calculated, value not stored	Calculated, value not stored

Data Element	Description	Format	Campus Database	Campus Application
<b>Number of Months time Average students per class</b>	Number of months reported multiplied by the average number of students per class. Average students per Participating class (field 10) multiplied by Number of Months (field 11).	Numeric	Calculated, value not stored	Calculated, value not stored
<b>Percentage</b>	Percent of the year the course is scheduled. The percent of the year the course is scheduled using the number of terms and the total terms in the year.	Numeric	Calculated, value not stored	Calculated, value not stored
<b>FYEE</b>	Full Year Equivalent Enrollment.  Average month enrollment (field 9) times Percentage (field 13). Reports as a decimal point (50% reports as 0.50).	Numeric	Calculated, value not stored	Calculated, value not stored
<b>Student to Teacher Ratio</b>	The number of students compared to the number of teachers. Total number of months multiplied by the Average Students per Class (field 12) divided by the Number of month (field 11).	Numeric	Calculated, value not stored	Calculated, value not stored

Data Element	Description	Format	Campus Database	Campus Application
<b>Course/Section</b>	Lists the name of the course number and section number, separated by a dash.	Alphanumeric	Course.number Section.number	Calculated, value not stored
<b>Teacher</b>	Name of the Primary Teacher.	Alphanumeric	staffHistory.primary Teacher	Scheduling > Courses > Sections > Staff History > Primary Teacher
<b>Yearly Average</b>	Year-to-Date average number of students enrolled in the section. Sum of the daily enrollment for each instructional day the course is scheduled divided by the total number of instructional days the section is scheduled.	Numeric	Calculated, value not stored	Calculated, value not stored
<b>Grade Levels (Total number)</b>	The grade levels present in the students scheduled into the course section and the number of students in that grade level.	Alphanumeric	Enrollment.grade	Student Information > General > Enrollment > General Enrollment Editor > Grade
<b>Number of Participating 9th Grade Classes</b>	Reports the total number of sections being reported.	Numeric	Calculated, value not stored	Calculated, value not stored

Data Element	Description	Format	Campus Database	Campus Application
<b>Department FYEE</b>	Total FYEE for all courses in the department. Reports to two decimal places. Sum of FYEE (field 14) for all courses reported in the department.	Numeric	Calculated, value not stored.	Calculated, value not stored
<b>Total FYEE</b>	Total FYEE for all courses in all departments. Reports to two decimal places. Sum of the Department FYEE for all departments reported.	Numeric	Calculated, value not stored	Calculated, value not stored
