

Report Logic

The following report logic is enforced:

- If a student was active AND enrolled in a CTE course at any time during the reporting period, the student reports.
- If the student does not have an active enrollment record but the Effective Date on the report editor is on or between the Start and End Date of the enrollment record, the record will report.
- If the student's enrollment record Start and End dates are outside of the Effective Date entered on the report editor, the enrollment record is not reported.
- A course is considered a CTE course if the CTE Course Flag on Course > Custom Data Elements is marked.

See the [CTE Extracts \(Nevada\)](#) article for directions for generating the extract.
