**Classic View:** CA State Reporting > CALPADS Staff Assignment

**Search Terms:** CALPADS Staff Assignment

The Staff Assignment file is used to submit data about staff teaching assignments. This information is reported for all certificated staff (Type 10, 11, 12, 25, 26, 27) who are actively employed on Information Day. Staff members must have a SEID, but staff with a SEID = 9999999999 do not report. Multiple records may be submitted when the staff person has multiple assignments in different schools or different Types.

The screenshot shows the 'CALPADS Staff Assignment' tool interface. At the top, there's a green header with the 'Infinite Campus' logo and a search bar. Below the header, the title 'CALPADS Staff Assignment' is displayed with a star icon. A breadcrumb trail shows 'Reporting > CA State Reporting > CALPADS Staff Assignment'. The main content area has a blue header 'CALPADS Staff Assignment' and a white box containing instructions: 'The Staff Assignment file is used to submit data about Staff assignments. Only active employees with the following staff designations (Types) are reported: Certificated K-12 Teacher (12), Certificated K-12 Administrator (10), Certificated K-12 Pupil Services (11), Non-certificated Administrator (25), Charter School Non-Certificated Teacher with a SEID (26), and Itinerant/Pull-Out or Push-In Teacher (27). This record type is required for Fall 2. Assignment data is reported for all staff who have an active District Assignment on the Reporting Date. Multiple records will be produced for Staff with multiple active Assignments of different Types or in different schools. Staff Assignment updates are not required for EOY. WARNING! The processing method for this file is full Replacement by School of Assignment and Academic Year. All of the data for an academic year and a school in the CALPADS database is replaced when a new file is submitted. Records can also be submitted for deletion using the Transaction Type: Delete. Carat Delimited is the State format for this report.'

Below the instructions, there are two sections. The left section has 'Reporting Date' (08/26/2020), 'Transaction Type' (Replace), and 'Format' (State Format/Carat Delimited). The right section is 'Select Calendars' with the question 'Which calendar(s) would you like to include in the report?' and three radio buttons: 'active year' (selected), 'list by school', and 'list by year'. Below these is a dropdown menu showing '20-21' with a list of schools: '20-21 Abbott Elementary', '20-21 Colfax Middle' (highlighted), and '20-21 Emerson High'. At the bottom, there are buttons for 'Generate Report' and 'Submit to Batch'.

## Report Logic

All staff who have an active District Employment record and an active District Assignment record with Type = 10, 11, 12, 25, 26 or 27 on the reporting date are included.

- Staff must have a Staff State ID (SEID) in Census > Demographics > Person Identifiers that is not blank or 9999999999.
- Multiple records should be submitted when a staff member has multiple District Assignments

with different Type codes. (One record per Type code per School. A staff person with three District Assignments with Type 12 in the same School reports one record. A staff person with one District Assignment with Type 12 and one with Type 11 reports two records).

- Submit Multiple records when a staff member has multiple District Assignments with the same Type code in different schools.
- In Field 14, the FTE for all active assignments in a school with the same Type are summed for reporting. When the staff person has multiple District Assignments with Types 10,11 or 12, the Non-Classroom Assignment Codes from all appropriate district assignments are reported in Fields 15-21, up to a total of seven unique codes in all district assignments for a given Type.
- For districts using Campus HR, staff who have multiple Work Assignments report a second row with a (potentially) different Location; the percent reports from the Work Locations Percent field, when populated.

Staff are not reported when the Exclude checkbox is marked on the staff person's District Assignment record.

### Operational Keys

- Academic Year ID
- School of Assignment

This is a FULL REPLACEMENT file. This means that when a file is submitted/posted to CALPADS, and a later file with the same School of Assignment and Academic Year is submitted/posted, the records from the second file *are replaced*, rather than updated or added to, the records from the first file.

## Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female or X: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

CALPADS Extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of X: Non-Binary, on the Identities tool:

1. Assign the **Gender of X: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field to either M: Male or F: Female.
3. Save the record when finished.

## Validate SASS Data

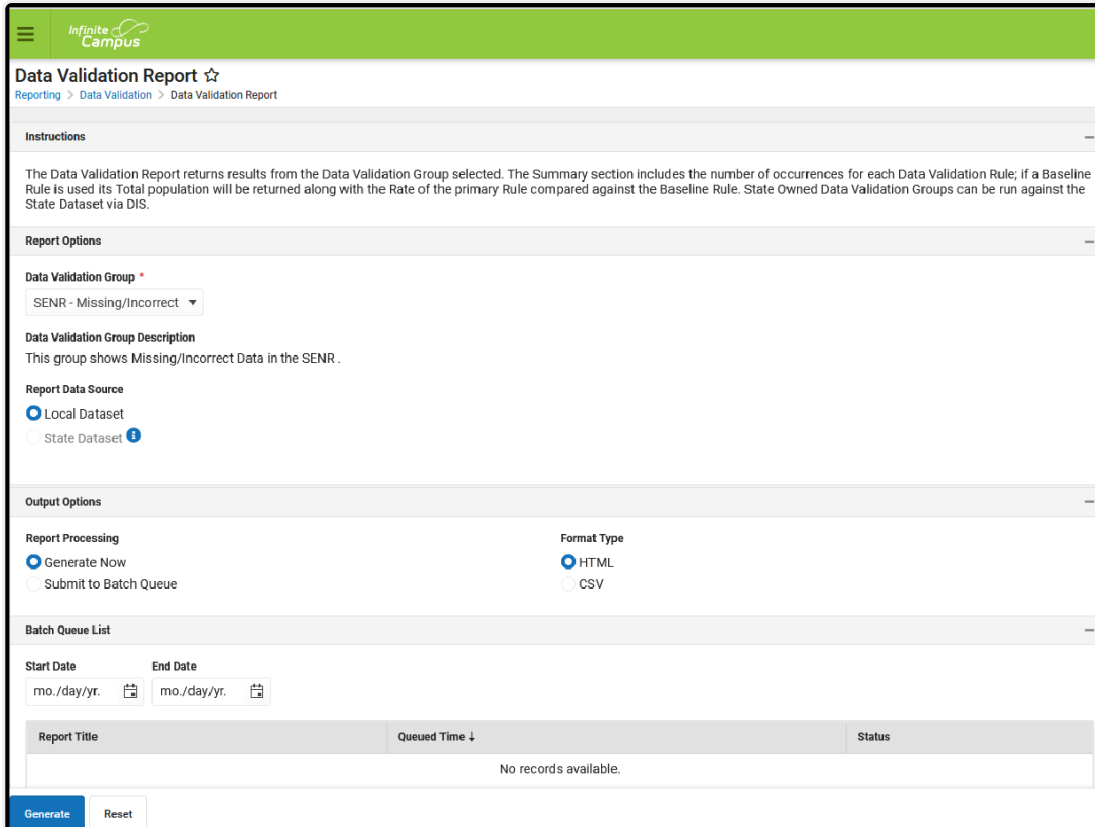

Use the [Data Validation Report](#) to correct any student data prior to the submitting the CALPADS file to the state. Validation Groups and Validation Rules are provided by Infinite Campus for a specific CALPADS extract (listed below). These groups are used to return certain rules assigned to each group.

- [CALPADS SSID Enrollment](#)
- [CALPADS Student Information](#)
- [CALPADS Student Programs](#)
- [CALPADS Student English Language Acquisition](#)
- [CALPADS Student Discipline](#)

- [CALPADS Staff Assignments](#)
- [CALPADS Course Section](#)
- [CALPADS Student Course Section](#)
- [CALPADS Work-Based Learning](#)
- [CALPADS Postsecondary Status Summary](#)

Modifications to the Validation Rules and Validation Groups can be made if your district has purchased the [Campus Analytics Suite](#); otherwise, they are read-only.

Users can select the **Missing or Incorrect Data** Validation Group, which returns any missing or incorrect data that is reported in the CALPADS Extract, like a missing enrollment exit reason or an incorrect date, for example.

Note that examples refer to CALPADS SENR.
