

View and Manage Notifications

Last Modified on 03/28/2024 3:59 pm CDT

Location: Notification Bell

Notifications are short, informational messages. See the [Process Alerts](#) article for more information about types of notifications sent to other types of Campus users.

Access notifications by clicking on the bell icon.

Click a notification to view more information, if applicable.

Teachers who also use [Campus Parent](#) may see notifications that cross platforms if they use the same account to access both applications. Portal notifications may display in Instruction and vice versa.
