This article explains how the Massachusetts SIF model has been set up, which objects and elements are being messaged and the Campus configuration required to successfully use SIF on MA versions of Campus.

Please read the [SIF Best Practices/Data Cleanup](#) article in order to ensure data is properly set up in Campus and thus properly reporting via SIF.

Note: Campus Release Pack .2231 contained a case which removed the following views:

Business Requirements

The Massachusetts Department of Education has received a State Longitudinal Data Systems grant used to introduce new technology to improve the data collection process. The ESE is implementing the School Interoperability Framework (SIF) to collect data for the SIMS, EPIMS, SCS collections as well as supporting SASID assignment and Education Data Warehouse Student Claiming.

The standards, policies and procedures established from this initiative are designed to be rolled forward for future annual SIF deployments.

[Click here](#) to review the state's reporting schedule and documentation.

Version

The current active MA SIF implementation meets v2.7 specifications.

SIF Zone Options

In order for certain SIF elements to report the proper data, you must establish SIF Zone Options. Please enter and save these preferences to ensure the correct data is being sent.

For step-by-step instructions on setting up SIF Zone Options, expand the link below:

► [Click here to expand...](#)

1. Navigate to Zones > [SIF Zone Options](#)
2. Select the appropriate Zone.
3. If you do NOT want State Excluded district assignments to report, mark the **Exclude All State Exclude District Assignments** checkbox.
4. If you only want primary enrollments to report, mark the **Exclude All Secondary Enrollments** checkbox.

Note: This checkbox only affects section and grade reporting for students/staff as well as staff assignments

5. Leave the **Strip Empty SIF 2.* XML Elements** unchecked as logic is already built to exclude elements that do not need to report.
6. If you do NOT want 'No Show' enrollments to report, mark the **Exclude No Show Enrollments** checkbox.
7. If you do NOT want State Excluded enrollments to report or if you do NOT want to send student information for a calendar that has 'Exclude' checked, mark the **Exclude All State Exclude Enrollments** checkbox.

This checkbox can make SIMS/SCS processing easier when there is a need to process students in one reporting window, but not the other. You can mark these student's enrollments as 'State Exclude' and for the reporting window the students should report in, uncheck the 'Exclude All State Exclude Enrollments' checkbox. Then, for the reporting window the students should not report in, check the 'Exclude All State Exclude Enrollments' checkbox.

8. Populate the **State Reporting Date** with the appropriate date
9. Select **Save**.

NOTE:

- The 'Exclude' checkbox on the Calendar only ever excludes student information tied to that calendar from reporting and only if the 'Exclude All State Excluded Enrollments' checkbox is checked. Otherwise, the 'Exclude' checkbox is completely ignored in SIF processing.
- If 'Exclude From SIF Exchange' is checked on the calendar, then nothing will report from that calendar, regardless of what is checked in these options.

- If 'Exclude From SIF' is checked on a grade level, then no students in that grade level will report, regardless of what is checked in these options.

Additional Information

A SIF Exclude check box has been added to the MA HR SIS on [Human Resources > Personnel > Personnel Master > Work Assignment > Work Location > SIF Exclude](#). This checkbox is specifically for the SIF logic to report appropriately to the State on the StaffAssignment, StaffSectionAssignment, StaffEvaluation, StaffPersonal, and EmploymentRecord Objects.

Please Note:

You must set up all HR Work Locations as you want them to send to the State with any SIF Excludes on the appropriate Work Assignment > Work Location(s), then request a Delete and Re-pull from DESE at the State. This will clear past data and resend the correct data as marked in the Work Locations.

Objects and Elements

See the sections below for details about each SIF object and element.

DisciplineIncident

▶ [Click here to expand...](#)

Object Triggering

Event Type	Requirement
Add	A Behavior Incident with a Behavior Event and/or Resolution that has a mapped State Event Code is created
Add	The Behavior Role is changed to Offender, adding the first offender to the incident
Add	One of the following enrollment fields is changed on an Offender, adding the first offender to the incident <ul style="list-style-type: none"> • State Exclude is unchecked • No Show checkbox is unchecked • Grade is updated from 00 to a reportable value • Service Type is updated to a value of 'P' • Enrollment start date is updated to be equal to or prior to the behavior incident date • Enrollment end date is updated to null or to be equal to or after the behavior incident date
Change	Multiple Events exist on a Behavior Incident and an Event is either removed or the Event Code is updated to be a value that has NO mapped State Event Code and at least one other Event still exists that DOES have a mapped State Event Code.
Change	A change is made to one of the following fields on Behavior Incident <ul style="list-style-type: none"> • Date of Incident • Time of Incident • Details • Context • Location

Event Type	Requirement
Change	A change is made to one of the following fields in the Event Details <ul style="list-style-type: none"> • Event Type • Number of School Personnel Victims • Number of Unknown Victims • Number of Non-Sch Personnel Victims • Retaliation-Related • Gang-Related • Hate-Related • Police Notified • Comments
Change	A change is made to one of the following fields in the Participant(s) Details <ul style="list-style-type: none"> • Role • Relationship to School • Injury • Weapon Type • Weapon Description
Change	A change is made to one of the following fields in the Resolution Details <ul style="list-style-type: none"> • Resolution Type • Resolution Start Date • Resolution End Date • Duration in School Days • Arrest • Ed Services Provided Code • Other specification • Shortened Expulsion • Zero Tolerance
Delete	A Behavior Incident is deleted
Delete	All Event Codes tied to the Behavior Incident are updated to values that have NO mapped State Event Code
Delete	The Behavior Role is changed from Offender to another value, removing the last offender from the incident
Delete	One of the following enrollment fields is changed on an Offender, removing the last offender from the incident <ul style="list-style-type: none"> • State Exclude is checked • No Show checkbox is checked • Grade is updated to 00 • Service Type is updated to a value other than 'P' • Enrollment start date is updated to be after the behavior incident date • Enrollment end date is updated to be before the behavior incident date

Object Population and Business Rules

Report 1 record per Behavior Incident.

Only report a DisciplineIncident object when:

1. A Participant has a Primary enrollment on the 'Date of Incident'.
 - The enrollment start date must be on or before the date of incident and the enrollment end date must be null or the enrollment end date must be on or after the date of incident.
 2. A Participant exists on a Behavior Event connected to the Incident with Role = O: Offender.
- AND**
3. A Behavior Event is mapped to a State Behavior Event code

Do not report if any Offenders have one of the following:

1. "Exclude from SIF reporting" on the enrollment State Grade Level is checked
2. "Exclude from SIF Exchange" on the calendar is checked
3. 'Exclude All State Exclude Enrollments' is checked on the SIF Zone Options AND either of the following are checked:
 1. 'State Exclude' is checked on the enrollment
 2. 'Exclude' is checked on the calendar
4. 'Exclude No Show Enrollments' is checked on the SIF Zone Options AND the 'No Show' checkbox is checked on the student's enrollment
5. A state grade level code of '00'

Only generate a DisciplineIncident Object for incidents within Behavior Management (Do not generate objects for any Behavior Referrals)

Data Elements

Data Element	Description and Business Rules	Campus Database Field and GUI Path
RefId	The Id (GUID) that uniquely identifies this DisciplineIncident entity.	N/A
@SchoolYear	School year in which the incident occurred, and for which the information is applicable, expressed as the four-digit year in which the school year ends (e.g., "2007" for the 2006-07 school year).	dbo.Calendar.endYear System Administration > Calendar > Calendar > School Years > End Year
AgencyReporting	Parent Tag The Id (GUID) of the school or LEA reporting the incident, usually the school in which the incident occurred.	School.schoolID District.districtGUID
@SIF_RefObject	The name of the SIF object to which the GUID relates. Hard coded to 'SchoolInfo'	N/A
IncidentNumber	Locally generated unique identifier Report IC generated incident ID Must be created in order to generated	BehaviorIncident.incidentID Behavior > Behavior Management > Incident ID
IncidentDate	The date the incident occurred	BehaviorIncident.timeStamp Behavior > Behavior Management > Date of Incident
IncidentTime	Parent Tag Time the incident took place	BehaviorIncident.timeStamp Behavior > Behavior Management > Time of Incident
@Type	1. Report the Standard Code of the Incident Context field 2. If null and there is a Default value, report the default value 3. Else, report '397'	Behavior > Behavior Management > Context
IncidentLocation	Location of the Incident 1. Report the Name of the Incident Location field 2. If null and there is a Default value, report the Name of the default value 3. Else, do not report	BehaviorIncident.Location Behavior > Behavior Management > Location
@Type	1. Report the Standard Code of the Incident Location field 2. If null and there is a Default value, report the default value 3. Else, do not report	Behavior > Behavior Management > Location BehaviorIncident.Location
IncidentReporter@Type	Information regarding the individual reporting the incident	N/A
RelatedToList	Parent Tag	N/A
RelatedTo	Specific category of incident (what the specific behavior event is). Reports a list of state codes associated with behavior event types for the behavior incident.	Campus Attribute where Object-Behavior Element = stateEventCode Behavior > Behavior Management > Event Type Behavior > Behavior Admin > Event Types > State Event Code System Administration > Custom Attribute > Behavior > State Event Code
WeaponTypeList	Parent Tag	N/A

Data Element	Description and Business Rules	Campus Database Field and GUI Path
WeaponType	Identifies weapon used in the incident Reports the Standard Code associated with the value selected in Weapon Type on the role from any event/role on the incident that a weapon is reported on (Note: Reports all the Weapon Type codes related to the incident)	dbo.BehaviorWeapon.weaponType Behavior > Behavior Admin > Event Types > Classification > Weapon Behavior Management > Incident > Events and Participants > Participant(s) Details > Weapon Type
IncidentCategory	Parent Tag	N/A
IncidentCategory/Code	Identifies the type of incident being reported 1. When Gang-Related checkbox is checked, report '3068' 2. When Hate-Related checkbox is checked, report '3069' 3. When State Event code is mapped to one of the following, report '3066': 1. 1010 2. 1020 3. 1040 4. 1030 5. 1050 6. 1097 4. When State Event code is mapped to one of the following, report '3067' 1. MA01 2. MA02 3. 1660 4. 1650 5. 1610 6. MA03 7. 1620 8. 1630 9. 1640 10. 1670 11. 1680 12. 1697 13. MA14 5. When State Event code is mapped to one of the following, report '3070' 1. 3700 6. When State Event Code is mapped to one of the following, report '04645' 1. 1700 2. 3210 3. 2500 7. ELSE NULL	dbo.BehaviorEvent.gangRelated dbo.BehaviorEvent.hateCrime dbo.BehaviorType.stateEventCode Behavior Management > Incident > Events and Participants > Event Details > Gang-Related Behavior Management > Incident > Events and Participants > Event Details > Hate-Related Behavior > Behavior Admin > Event Types > State Event Code
OffenderList	Parent Tag	N/A
OffenderList/Offender	Parent Tag	N/A
OffenderList/Offender/@Type	Indicates the offender's relationship to the school <ul style="list-style-type: none">Sends standard code associated with the "Relationship to School" field when the participant has a role of "Offender"If Behavior role is null, use default value selected on the attribute dictionary.If default is null, send standard code associated with the value of '1' from the drop list.	object = 'BehaviorRole' element = 'relationshipToSchool' Behavior Management > Incident > Events and Participants > Participant(s) Details > Relationship to School System Administration > Custom > Custom/Attribute > Behavior Role > Relationship to School System Administration > Custom > Custom/Attribute > Behavior Role > Relationship to School > Default Value
Offender/OffenderList/Offender/Name/@Type	Hardcoded '04'	N/A <Name Type="04">

Data Element	Description and Business Rules	Campus Database Field and GUI Path
OffenderList/Offender/Name/LastName	Offender's Last Name	dbo.Identity.firstName Behavior Management > Incident >Events and Participants Census > People > Demographics > Last Name

------------	-------------

Event Type	Requirement
Add	<p>An Add trigger is sent when:</p> <ul style="list-style-type: none"> A staff member is added to a section in the Staff History Checking Course.active Unchecking Course.stateExclude EXEMPT is removed from Course State Code Exclude is unchecked in the District Employment record Staff History Start Date is updated from after the State Reported Date to before or equal to the State Reported Date The first student with a primary enrollment OR student with non-state excluded secondary enrollment and SIF Zone Options 'Exclude All Secondary Enrollments' is not checked is rostered into the section District Assignment on Staff History is changed from a title code with a NULL standard code to a title code with a VALID standard code
Change	<p>A Change trigger is sent when:</p> <ul style="list-style-type: none"> A change is made to one of the following fields on the Staff History record: <ul style="list-style-type: none"> Start Date End Date District Assignment Exclude is unchecked in the District Assignment record <ul style="list-style-type: none"> Note: In HR, when at least one Work Location for a Work Assignment is unchecked, then the Work Assignment will report. If multiple Work Locations are unchecked for one Work Assignment, then report the corresponding Work Assignment and Work Location.
Delete	<p>A Delete trigger is sent when:</p> <ul style="list-style-type: none"> A staff member is removed from a section in the Staff History Unchecking Course.active Checking Course.stateExclude EXEMPT is entered from Course State Code Exclude is checked in the District Employment record Staff History Start Date is updated from before or equal to the State Reported Date to after the State Reported Date The last student with a primary enrollment OR student with non-state excluded secondary enrollment and SIF Zone Options 'Exclude All Secondary Enrollments' is not checked is removed from the section District Assignment on Staff History is changed from a title code with a VALID standard code to a title code with a NULL standard code

Object Population and Business Rules

- Report an object instance for each staff who has a Staff History record on the section with a Start Date = Null or <= the state reported date (use current date if state reported date is not populated).
 - Report an object for each of these staff records assigned to the course for each course not marked with a state code of EXEMPT.

The staff must be assigned to the section as a Primary Teacher OR a Teacher

If no students with primary enrollments OR students with non-state excluded secondary enrollments and SIF Zone Options 'Exclude All Secondary Enrollments' is NOT checked are rostered into the course, staff section assignment will not pull

In other words: 1 student with a primary enrollment must be rostered into the course OR if the SIF Zone Options 'Exclude All Secondary Enrollments' is NOT checked, then 1 student with a primary enrollment or 1 student with a non-state excluded secondary enrollment must be rostered into the course

If all students are withdrawn from the course, staff section assignment will not pull

Do not report records associated with a Calendar marked "Exclude from SIF Exchange"

Records associated with an Assignment marked with an exclude will not report.

Note: For HR, one Work Assignment will report for each Work Location that is not excluded. When a work location is excluded, the matching Work Assignment will not report.

Records associated with an Employment marked with an exclude will not report.

If course has State code = EXEMPT, do not report

If course has Active checkbox unchecked, do not report

If course has State Exclude checked, do not report

A record must not report for staff marked as non employees on their employment assignment.

Note: This is only a possibility in HR using the Resource Management tool

Do not report Staff that have a Title Standard Code of NULL

- HR location is in HR > Administration > Position Code > Title

Object Population and Business Rules

Only include primary enrollments where the start date is <= the request filter date. Use the current date if request filter date is not populated.

- Send one StudentAttendanceSummary Object per student PersonID and School combination (StateID is the same as SASID)
- Student's enrollment must include at least one instructional day to report
- When multiple primary enrollments for the same school exist for a student, report only 1 cumulative SAS record. The reported start date should be from the earliest enrollment record and the end date should be based off the most recent enrollment record.

Must have a state grade level code that is not '00' (System Administration > Calendar > Calendar > Grade Levels)

"Exclude from SIF reporting" on the enrollment State Grade Level is checked, do not report

"Exclude from SIF Exchange" on the calendar is checked, do not report

Do not report if 'Exclude All State Exclude Enrollments' is checked on the SIF Zone Options is checked AND either of the following are checked:

- 'State Exclude' is checked on the enrollment
- 'Exclude' is checked on the calendar

Do not report if 'Exclude No Show Enrollments' is checked on the SIF Zone Options and 'No Show' is checked on the enrollment

Data Element	Description and Business Rules	Campus Database Field and GUI Path
LowIncomeStatus	Report student's economic status (FRAM eligibility) 1. When a student has a FRAM record with a start date that is on or before the Current Date and the end date is on or after the Current Date and the School Year matches the reporting year: 1. If the eligibility = 'F', report '01' 2. If the eligibility = 'R', report '02' 2. Else, report '00'	FRAM > Eligibility > Eligibility Editor > Eligibility dbo.POSEligibility.eligibility
VocTechEdAttainment	Indicates that the student is a CTE completer who has attained 80% of the minimum competency tasklist 1. When Competency Attainment is NOT = Null, reports the code selected. 2. When Competency Attainment is = Null, but there is a valid default value on the attribute, reports value in Default Value. 3. Else, when Competency Attainment = Null, and a valid default value does NOT exist on the attribute, reports 500	Student Information > General > Enrollments > State Reporting Fields > Career Vocational Technical Education (CVTE) > Competency Attainment System Administration > Custom > Attribute/Dictionary > Enrollment > Competency Attainment > default value EnrollmentMA.cvteCompetency
MemberofMilitaryFamily	An indication as to whether this student is eligible for assistance as a member of a military family as defined by the Interstate Compact on Educational Opportunity for Military Children. 1. Report the 2-digit code from the Status field in the Military Connections record if the following conditions are met: 1. A record exists in Military Connections and the start date is null or the start date is on or before the Current Date and the end date is null or the end date is after the Current Date 2. AND the relationship to the military individual has a null start date or the start date is on or before the Current Date and the end date is null or the end date is on or after the Current Date 3. AND the military individual is marked as a Guardian, report the 2-digit code from Status 1. If multiple records exist, report from the most recent record 2. If no record exists meeting the criteria above, report 00.	Census > People > Military Connections ImpactAidEmployment.militaryStatus
VocTecSPEDPopulation	An indication of the status (single parent) of a student enrolled in a career/vocational technical education program (Chapter 74-approved vocational technical or non-Chapter 74 career and technical) that meets the definition for single parent. 1. If Program Type is 02, 04 or 14 AND Single Parent is 01 (checked), then report 02. 2. Otherwise report 500	Student Information > General > Enrollments > State Reporting Fields > Career Vocational Technical Education (CVTE) > Program Type Student Information > General > Enrollments > State Reporting Fields > Career Vocational Technical Education (CVTE) > Single Parent Enrollment.singLEParent, Enrollment.vocationalCode, default

Data Element	Description and Business Rules	Campus Database Field and GUI Path
SLIFE	See SIMS Data Handbook for specific definition (DOE41) 1. When the following criteria are met, report Yes: 1. When student has an EL record where Identified Date is NOT Null and Identified Date is on or before the Current Date and Program Exit Date is on/after the Current Date or is NULL AND 2. SLIFE = Checked 2. Otherwise, report No.	Student Information > Program Participation > EL > SLIFE LEP.slife
MAFosterCare	Indicates whether student is currently receiving/in Foster Care 1. Report 'Yes' when the student has a Foster Care record where start date is not null and on or before Current Date and End date is null, or End date is on or after current date. 2. Else, report 'No'	Student Information > Program Participation > Foster Care dbo.FosterCare
homelessUnaccompanied	States if the homeless student is unaccompanied 1. Report 'Yes' when the student has a Homeless record where start date is on or before the Current Date and end date is null, or end date is on or after the Current Date and Unaccompanied Youth = Yes. 2. Else, report 'No'	Student Information > Program Participation > Homeless > Unaccompanied Youth Homeless.unaccompaniedYouth
MAFormerSection504	Indicates if student was part of 504 previously 1. If Section 504 is null, report the default value 2. When Section 504 = 02, report "Yes". 3. Else report 'No'	Student Information > General > Enrollment > Section 504 Enrollment.section504
EarlyChildhoodExperience	Indicates if the students participates in Early Childhood 1. Students in grade level PK, PK1, PK2, PK3, PK4 and PK5 must be reported as 99 (Not Applicable). 2. If a student is not in PK, report the value based selected Student Information > Program Participation > Early Learning > EC Education Experience 1. If a value is not selected or there is no Early Learning record, report the default value 2. If a default value does not exist, report 00 3. If multiple records exist, report from the the most recent record	Student Information > Program Participation > Early Learning > EC Education Experience dbo.EarlyLearning

Object Population and Business Rules

Only send StudentSectionMarks for courses where Course Code <> EXEMPT, Course is marked as active, and Course <> State Report Exclude.

Only one StudentSectionMarks is sent per student per section. If there is more than one Grading Task or Standard that is marked as State Reported and Final on the course, it will report the grade from the Grading Task/Standard in this order:

1. If student is rostered multiple times in the same section:
 1. Records where the roster start date is null or less than or equal to the State Reported Date will report
 2. Else, the latest roster start date will report
 3. Else, the highest rosterId will report
2. Else, the grading task with a credit greater than 0 with a score will report
3. Else, the latest section term with a passing score will report
4. Else, the latest section term will report

Only include primary enrollments if the SIF Zone Options 'Exclude All Secondary Enrollments' checkbox is checked

Note: Enrollment should only be included if the start date is <= the state reported date. Use the current date if state reported date is not populated.

We will only report calendar's associated with the SIF Zone year.

"Exclude from SIF reporting" on the enrollment State Grade Level is checked, do not report

"Exclude from SIF Exchange" on the calendar is checked, do not report

Do not report if 'Exclude All State Exclude Enrollments' is checked on the SIF Zone Options is checked AND either of the following are checked:

- 'State Exclude' is checked on the enrollment
- 'Exclude' is checked on the calendar

Do not report if 'Exclude No Show Enrollments' is checked on the SIF Zone Options and 'No Show' is checked on the enrollment

Must have a state grade level code that is not '00'
(Sys Administration > Calendar > Calendar > Grade Levels)

StudentSpecialEducationSummary

[Click here to expand...](#)

Object Triggering

N/A - Request Only

Object Population and Business Rules

The student must have an IEP or SPED state reporting record within the reporting range. This is determined by the following logic:

- SPED State Reporting Tab
 - The start date is <= the state reported date. Use current date if state reported date is null
 - The end date is null or >= enrollment start date
 - If there is more than one active record returned, use the record with the most recent start date.
- IEP
 - The IEP start date is <= the state reported date. Use current date if state reported date is null
 - The IEP end date is null or >= enrollment start date
 - If more than one active IEP is returned, use the IEP that has the highest planID.

When comparing the enrollment start date, use the primary enrollment with the most recent start date that is still <= the state reported date.

Must have a state grade level code that is not '00'
(Sys Admin > Calendar > Calendar > Grade Levels)

"Exclude from SIF reporting" on the enrollment State Grade Level is checked, do not report

"Exclude from SIF Exchange" on the calendar is checked, do not report

Do not report if 'Exclude All State Exclude Enrollments' is checked on the SIF Zone Options is checked AND either of the following are checked:

- 'State Exclude' is checked on the enrollment
- 'Exclude' is checked on the calendar

Do not report if 'Exclude No Show Enrollments' is checked on the SIF Zone Options and 'No Show' is checked on the enrollment

Data Elements

Data Element Label	Description and Business Rules	Campus Database Field and GUI Path

Object Triggering

Event Type	Requirement
Add	An Add is triggered when: <ul style="list-style-type: none"> A term is initially added and saved with the following required fields: <ul style="list-style-type: none"> Name Term Start Date Term End Date
Change	A change is triggered when: <ul style="list-style-type: none"> One of the following fields on Term is changed: <ul style="list-style-type: none"> Term Start Date Term End Date
Delete	A Delete is triggered when: <ul style="list-style-type: none"> A term is deleted

Object Population and Business Rules

Term ID's are generated based on the combination of schedule structure ID's, Calendar Excludes (which includes looking at calendar.exclude & calendar.SIFexclude) and definition.termtype, which is due to the fact that MA state requires unique termID's based on section.termtype/course.termtype

Example: School 1 has 4 terms. Course A should have course.termtype counted as "Quarters" and is scheduled in every term. These get assigned termID's of 1-4. Course B should have course.termtype counted as a "Full year" and is scheduled in every term. Course B cannot have the same termID's as it is a different term type. Thus, the above process is used.

Only schools with calendars assigned for the active SIF Zone year send this information.

Only the trial that is currently active sends this information.

Calendars marked as Exclude from SIF are not sent to the state.

Reporting SIF Data

SIF data is reported to the State via a ZIAgent connection with Campus. Setup and configuration of the ZIAgent is done by Campus and is not controlled or accessible via the Campus user interface.

Publishing and Auditing SIF Data

Campus provides two useful tools for managing SIF data. See the table below for more information.

Tool	Description
MA SIF Publish Tool	The MA SIF Publish Tool allows users to manually initiate a resync of all SIF objects or select SIF objects for a specific school year and indicates when each SIF object has completed the resync.
MA SIF Sent Object Search	<p>MA SIF Sent Object Search tool allow you to search for and audit SIF data sent to the state and filter this data based on a defined date range, SIF object, and other identifiers.</p> <p>This tool is especially helpful when auditing data manually published via MA SIF Publish Tool.</p>
MA SIF Record Updater	Provides districts with the ability to send an update of SIF objects from Campus to the State for a specific student/staff member or group of students or staff.
SIF Record Deleter	The SIF Record Deleter allows you to delete specific SIF records in an effort to assist in cleaning up troublesome SIF data such as orphaned records and records that were supposed to be excluded but were erroneously sent.

Agent, Zone, and Data Access Rights Setup

Infinite Campus will set up your SIF Agent and Zone and can run a script to set up proper Data Access Rights. Please reach out to Infinite Campus support if you need assistance in setting up these tools.

Exclude SIF Reporting for a Calendar

Marking the **Exclude from SIF Exchange** checkbox on a calendar will exclude the SIF TermInfo and SchoolCourseInfo objects from generating or reporting records in SIF.

SIF SASID Reporting for Student State ID in Campus

Inbound messages from the state with new SASID values (StudentPersonal/StateProvinceID) will populate the Student State ID field. If the field is not null, any incoming SASID value will not overwrite the existing value.

FAQ

Does Campus use a single SIF Agent or multiple agents for differing types of data?

A: Campus provides a fully functioning ZIS which allows multiple agents to be connected and can communicate with all of them.

Is Any Special Software/Hardware Required to Host the Zone Integration Server (ZIS)?

A: No. Infinite Campus provides every customer with a free embedded ZIS.

How Does the Campus Data Integration Server (DIS) compare to the standard ZIS?

A: DIS is how Campus sends XML messages for different purposes (State Edition, Food Service, National Records Exchange). SIF is a subset of DIS. Campus' ZIS is SIF certified and we were the first company to receive SIF 2.0 ZIS certification.

Can I Modify and Customize Campus SIF Agent?

A: No. The SIF Agent is hard coded and does not allow for modification or customization.

What SIF Agents is Campus able to Connect With?

A: Campus can establish a SIF connection with every SIF agent that exists. Campus just needs to know which objects should be sent to the SIF vendor.

Is There a Way to Send Only Certain Elements of a SIF Object?

A: No. When Campus sends information for a SIF object, all elements within that object are sent. There is no way to specify which elements within an object should be sent.

If a Student's Enrollment Record is Ended, Will SIF Messages Still be Sent for this Student?

A: Yes. As long as the enrollment record is in the zone it will send a SIF message that will include the Entry Date and Exit Date.
