# Tool Rights

Two tool rights govern access to the Standards tab.

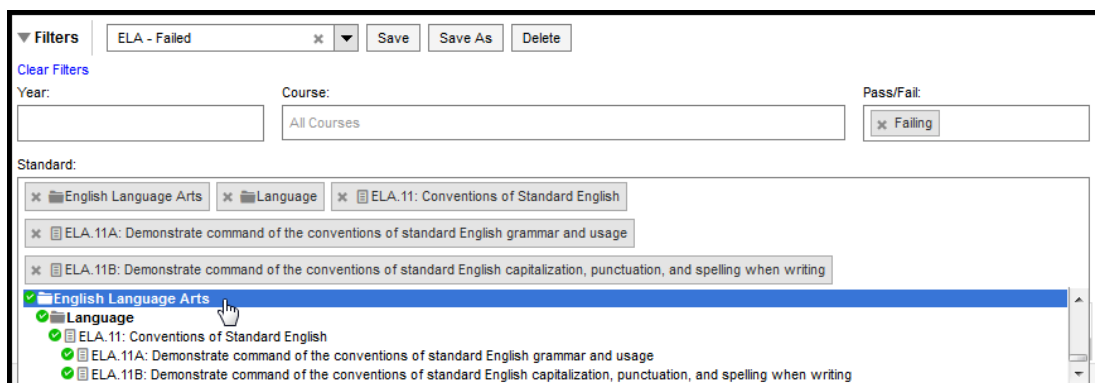

The primary right grants access to the tool and the *Assignment Data* sub right allows the user to view details for assignments.

Users with rights to the Standards tab have access to previous years' data by default, without requiring calendar rights to previous years. The Years filter displays any years in which the student was rostered into a course that had standards aligned to it.

# Filters

Filter data by **Year**, by **Course**, by whether the student received a **Passing** or **Failing** score, or by **Standard**. These filters are specific to the student. For example, only courses the student has taken are listed.

**Save** a filter and enter a Name to return to it later. Filters saved on the Standards tab are also available to teachers in the [Progress Monitor](#), so filter names should be unique and descriptive. For example, this image shows a saved filter that shows instances where the student received a failing grade on English Language Arts standards:

Save useful filters or access those saved by administrators.
