The **CTE Data Extracts (NV)** tool was deprecated as of Campus.2243. Please refer to the CTE Reports article for information on generating and submitting CTE data to the Nevada Department of Education.

PATH: *NV State Reporting > CTE Data Extracts > Report Type > Survey Results Report*

This is the sixth and final upload and shows the results from the Follow-Up/Survey process that is started in February and due to NDE in June. The CTE students that completed a Terminal course and graduated high school from the previous school year are followed up on to find out what they were doing 6 months after graduating. Districts are required to send out a survey to establish this data. The input operator would send out the survey and then mark that the survey was sent. Once the survey is returned the input operated will populate the CTE Survey Results on the Graduation tab.

Survey Results Report Type

Report Logic

- Students report if they were active AND enrolled in a CTE course at any time during the reporting period.
- A course is considered as CTE if the CTE Course Flag on Course > Custom Data Elements is marked.
- Data only reports from Primary enrollments.
- The calendar and effective date chosen for this report must be the year of graduation NOT the current year.
