Important Information about this Tool

- Campus automatically voids all returned transactions. The original transaction appears with the Returned status and the correcting transaction appears with the Return Void status. Transactions may be returned if the account is not valid or has insufficient funds.
- Transaction fees are never refunded.
- Payments with the Transaction Status **Resolved** can only be refunded if the transaction was resolved by Campus Support. If you need to refund a payment that you manually resolved, contact Campus Support for assistance.
- When a payer makes a purchase for \$0.00, Campus assigns a reference number but a Payment Method does not appear in the report. In addition, Service Fees are not applied when the total is \$0.00.
 - A Deposit Date does not display either unless the zero dollar purchase was purchased with other items for which the payer was charged and the transaction is processed.
- If an E-check fails, it can occur up to 10 business days after settling. If there is a failure, the amount of the E-check is automatically returned.
- Refunds (full or partial) for echecks are not allowed until there is a Settlement Date.
- Refunds for echecks are processed 12 days after the transaction's Payment Date. This ensures funds have cleared before the refund is processed.
- All refunds that are requested between 5:45 p.m. and 6:00 p.m. Eastern Time will not process until 12:00 a.m. the following day. For example, a refund requested at 5:45 p.m. on September 1st will be processed at 12:00 a.m. on September 2nd. This rule applies to all payment types except for echecks which cannot be processed until 12 days after their transaction's Payment Date.

About the Deposit Process

The deposit process runs daily before 5:45 PM Eastern Time (ET). The deposit job must complete by 6:00 PM Eastern Time (ET); otherwise, the payment platform moves the request date forward one day to ensure the deposit job has enough time to complete.

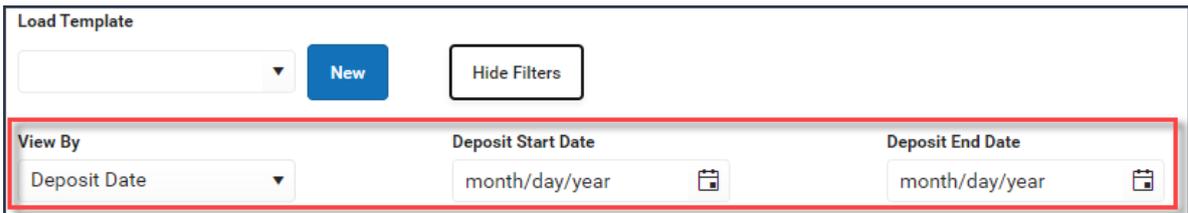

The deposit process does not run on weekends (Friday, Saturday, Sunday) or holidays.

Step	Description
1	Campus determines your district's account balance. When your district is processing payments, the fees associated with them and any returns/refunds you process are subtracted from your account balance when they occur. So, at the end of each business day Campus calculates the balance then requests a deposit. If your district's account balance is negative, Campus issues a negative deposit.

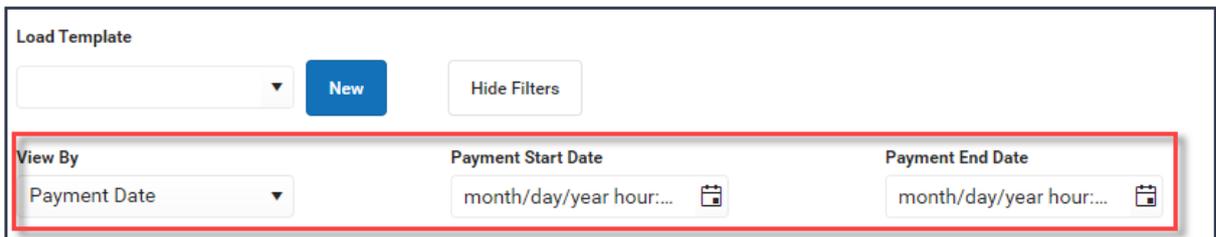

Step	Description						
2	<p>After determining the balance, Campus combines transactions with the following statuses into a deposit.</p> <ul style="list-style-type: none"> • Completed • Resolved • Returned • Partial returned • Returnvoid • Transactions with a settled date • Transaction Fees <p>There is a brief delay (up to 1 hour) between the time the deposit request is made and when the deposit is processed by the payment platform.</p>

Transaction Status Descriptions

Transaction Status	Description
Completed	A fully completed transaction.
Canceled	If a transaction displays this status, you can manually resolve the transaction or contact Campus Support.
Exception	The payment was processed by the payment vendor but not on Campus. If a transaction displays this status, you can manually resolve the transaction or contact Campus Support.
Returned and Return Void	Campus automatically voids all returned transactions from the payment vendor. The original transaction appears with the Returned status and the correcting transaction appears with the Return Void status. Transactions may be returned if the account is not valid or has insufficient funds. Transactions also appear in these states if the district manually Refunds a Payment . There could be a two to five-day delay in which Campus may have completed the transaction and the payment vendor may need to return it.
Resolved	Transactions may be manually resolved by Campus Support or by the district if the transaction was processed but still appears to be in an Exception, Canceled, or Pending Status in the Payments Reporter.
Revoked	Transactions can be manually revoked by the district if an interruption occurs between the district and the payment vendor where the payment was never processed. This status displays transactions manually revoked by the district within the date range entered on the editor.
Pending	If a transaction displays this status, you can manually resolve the transaction or contact Campus Support.
Processing	If a transaction displays this status, our payment processor is waiting for confirmation from the bank that the transaction has cleared. Once the confirmation is received, the deposit date could be in the past. For example, a fee or refund might show a deposit request date of 4/3 but will stay in pending status until 4/10 then once in completed status the deposit date would be 4/4. <div style="background-color: #f8d7da; padding: 10px; border: 1px solid #f5c6cb;"> <p>Negative deposits can take 5-7 business days before they have a Deposit State of Completed in Campus.</p> </div>

View Details for a Single Transaction

A transaction with the label Fee Surplus indicates an online payment was voided using the [Fees](#) tool. The payment amount is deposited into the surplus for that student. When you see this label, the payment can **NOT** be refunded in Payments Reporter.

To view details for a single transaction, click the transaction you want to view. The Payment Transaction panel displays details for the transaction.

Since lines on the Payments Reporter are grouped by Fund ID, this is a good method for viewing the entire transaction.
