

Teacher Student Data Link Interchange (TSDL) (Colorado)

Last Modified on 03/11/2024 8:46 am CDT

[Report Logic](#) | [Report Editor](#) | [Generate the Report](#) | [Report Layout](#)

Tool Search: TSDL Interchange

The TSDL Interchange captures data to link students in grades 6-12 to courses and instructors for the reported school year.

The screenshot shows the TSDL Interchange tool interface. At the top, there's a breadcrumb trail: [Reporting](#) > [CO Data Pipeline](#) > [TSDL Interchange](#). Below this is a header bar with the title "TSDL Interchange" and a star icon. A sub-header bar also displays "TSDL Interchange". A descriptive text states: "This tool will extract data to complete the Teacher/ Student Data Link (TSDL) Interchange files."

The interface is divided into two main sections: "Extract Options" and "Select Calendars".

Extract Options:

- Ad Hoc Filter:** A dropdown menu.
- Effective Date:** A date picker set to 02/01/2024.
- Report Legal Name:** A checkbox.
- Migrant Only:** A checkbox.
- Report All Credits Granted:** A checkbox.
- Format:** A dropdown menu set to CSV.

At the bottom of the Extract Options section are two buttons: "Generate Extract" and "Submit to Batch".

Select Calendars:

Which calendar(s) would you like to include in the report?

- ☒ active year
- ☐ list by school
- ☐ list by year

Below the radio buttons is a list box showing the selected calendar "23-24" with its sub-items: "23-24 IES", "23-24 IHS", and "23-24 IMS".

Below the screenshot, the text "TSDL Interchange" is displayed in a light gray font.

Read - Access and generate the Teacher Student Data Link Interchange (TSDL) Extract.

Write - N/A

Add - N/A

Delete - N/A

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

Report Logic

All students in grades 6 through 12 (grade levels must be mapped to a State Grade Level Code) who have an active enrollment at any point during the year and who are enrolled in a course at any point during the school year report.

- One record per student reports for every course in which the student is enrolled if that course

includes a Grading Task marked as State Reported AND the student has been enrolled for at least six weeks OR has received a score for the course.

- If a student moves from one section of a course to another section of the same course, the final section roster record reports.

When the **Migrant** checkbox is marked on the report editor, all students in grades 6 through 12 (grade levels must be mapped to a State Grade Level Code) who have an active enrollment at any point during the year that has the Migrant checkbox marked on the enrollment record and who are enrolled in a course at any point during the school year report.

- One record per student reports for every course in which the student is enrolled if that course includes a Grading Task marked as State Reported AND the student has been enrolled for at least six weeks OR has received a score for the course.
- If a student moves from one section of a course to another section of the same course, the final section roster record reports.

Students do not report when:

- They are enrolled in a grade level that is marked as State Exclude.
- Their enrollment record is marked as State Exclude or No Show.
- The calendar of enrollment is marked as State Exclude.

Teachers, Courses and Sections do not report when:

- The Course is scheduled into a Non-Instructional Period.
- The Calendar is marked as Status Exclude.
- The Course is marked as Exclude.
- The Course does not have a Grading Task marked as State Reported.

Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female or N: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

Data Pipeline Extracts and other required extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of N: Non-Binary, on the Identities tool:

1. Assign the **Gender of N: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field to M: Male, F: Female or N: Non-Binary.
3. Save the record when finished.

Report Editor

The following fields are available.

Field	Description
Ad hoc Filter	Select a saved ad hoc filter to only include those students in the filter in the report, assuming those students meet the reporting logic and business rules of this report.
Effective Date	<p>The entered date is auto-populated to the current date and returns active courses as of the entered date. If the field is left blank, all courses and section, whether active or inactive, report.</p> <p>The date can be changed by entering a new date in <i>mmddyy</i> format or by using the calendar icon to select a date.</p>
Report Legal Name	<p>When marked, the student's first and last name (fields 17 and 18) and gender (field 19) reports from the Protected Identity Information section on the Identities record.</p> <p>When marked, the following fields report the staff's name from the Protected Identity Information section on the Identities record:</p> <ul style="list-style-type: none"> Educator of Record Staff's First Name (field 10) Educator of Record Staff's Last Name (field 11) Contributing Professional Staff's First Name (field 13) Contributing Professional Staff's Last Name (field 14)
Migrant Only	When marked, only students marked as Migrant on their enrollment record report.

Field	Description
Report All Credits Granted	When marked, the Credits Granted field reports for all students when they meet the reporting population and logic requirements.
Format	The TSDL Interchange report can be generated in either CSV (default option) or HTML formats.
Calendar Selection	At least one calendar needs to be selected in order to generate the report. Reports can be selected by Active Year, School or Year.
Report Generation	Choose the Generate Extract to display the results of the chosen items immediately. Choose the Submit to Batch option to generate the report at a specified time. This option is helpful when generating large amounts of data.

Generate the Report

1. If desired, select students from an existing **Ad hoc Filter**.
2. Enter the desired **Effective Date**.
3. Mark the **Report Legal Name** checkbox, if desired.
4. Mark the **Migrant** checkbox, if desired.
5. Select the **Format** of the report.
6. Select the **Calendar(s)** from which to report information.
7. Click the **Generate Report** button to display the report immediately. Or choose the **Submit to Batch** button to select when the report generates.
