

Indiana Ed-Fi Scheduled Tasks

Last Modified on 03/11/2024 8:46 am CDT

Tool Search: Task Scheduler

A valid Ed-Fi Configuration must be set up prior to creating / running tasks. Please review the [Ed-Fi Configuration](#) article for more information.

Ed-Fi v3.x Attendance Resync Scheduled Task (Campus.2247 and after)

The following section describes how to modify the Ed-Fi Attendance Resync scheduled task.

The screenshot displays the 'Scheduled Task List' and 'Scheduled Task Detail' for the 'Ed-Fi Attendance Resync' task. The task is highlighted in blue and has a green status indicator.

Name	Start Date	Frequency	Status
Dialer--Daily messag	10/29/2015 16:00:00	Daily	Red
Dialer--Daily unexcu	10/28/2015 15:00:00		Red
Dialer--Virtual Atte	12/04/2020 09:00:00		Red
Ed-Fi Attendance Resync	10/21/2022 01:00:00	Daily	Green
MB--16-17 Past Due	03/06/2020 10:00:00	Weekly	Red
MB--17-18 Past Due	03/06/2020 10:00:00	Weekly	Red

Scheduled Task Detail

*Name: Ed-Fi Attendance Resync

*Start Date/Time: 10/21/2022 01:00 AM

Tool Code: [Empty]

Task Type: ☐ SQL Script ☒ Java (Prism URL call)

Stop/Pause Execution: ☐

Recurring Frequency: Daily

x=edfi.EdFiService-resyncData&resyncYear=2023&Attendance=resync&specialDate=yesterday

The Task Scheduler is running on this server.

Scheduled Task List and Scheduled Task Detail

This scheduled task only reports attendance on the day. In the example above, records as of 10/21/2022 are sent to the ODS at 01:00 am on **10/22/2022**.

The scheduled task does not consider changes made to other days. Such changes should be made using the standard resync function. See the [Resync \(Ed-Fi\)](#) article for more information.

The example scheduled task provided above is for the **2022-2023** school year. To modify the task for other Ed-Fi years, the resync year portion of the query needs to be updated.

For example, to resync the **2023-2024** school year, the query would be:

```
x=edfi.EdFiService-  
resyncData&resyncYear=2024&Attendance=resync&specialDate=yesterday
```

To modify the Ed-Fi Attendance Resync scheduled task for the Active Year:

1. Navigate to the **Task Scheduler**. (Classic View: *System Administration > Preferences > Task Scheduler*)
2. Click **Ed-Fi Attendance Resync**.
3. Click **Prism URL call**.
4. Change the year to the current active End Year (If the active school year is 2023-2024, change the year in the query to 2024).
5. Click **Save**.

The Ed-Fi Attendance Resync Task is now set up to sync records in the current active year.
