Search Terms: Physical Fitness Assessment

The Physical Fitness Assessment extract is used to report student state physical fitness test results to complete the Connecticut state-defined report format.

Report Logic

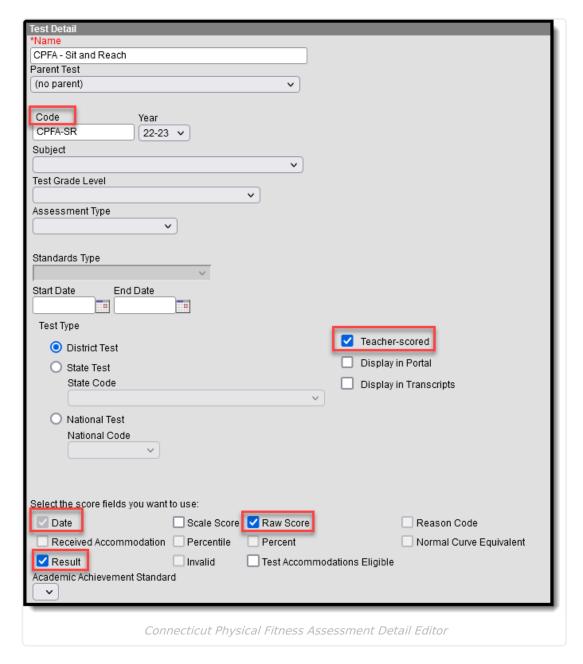

Students report when the following conditions have been met:

- The student has an enrollment in the selected calendar and has a Physical Education
 Assessment with a Code of CPFA-SR: Sit and Reach, CPFA-CU: Curl Up, CPFA-PU: Push Up,
 CPFA-MR: Mile Run, CPFA-P20: 20m PACER, or CPFA-P15: 15m PACER. See Setting Up a
 Fitness Test Assessment for further instruction on setting up these codes.
- The student assessment must have a Test Date within the Date Range on the extract editor.
- The student assessment must have a Result code saved.
- The assessment must report only for the student's enrollment that was active on the assessment Date.
 - When the student is enrolled into more than 1 enrollment on the assessment Date, report a single record for the enrollment prioritized by the following:
 - Primary enrollment
 - Latest Start Date
 - Latest enrollment ID
 - A student will never report more than 1 record per AssessmentType unless the student has more than 1 assessment instance of the AssessmentType on their Assessment tab.

Setting Up a Fitness Test Assessment

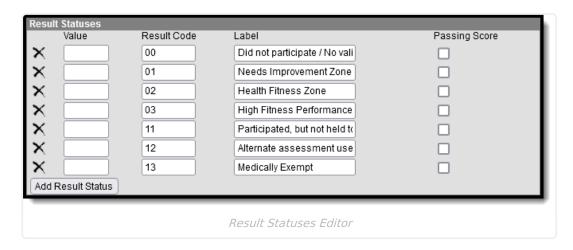

- 1. Go to Assessment > Test Setup > Connecticut Physical Fitness Assessment and press **New**Test
- 2. Enter a **Name** for the assessment.
- 3. In the **Code** field, enter the appropriate code. Be sure to setup an assessment for each of these codes:
 - · CPFA-SR
 - CPFA-CU
 - o CPFA-PU
 - o CPFA-MR
 - o CPFA-P20
 - o CPFA-P15
- 4. For each assessment, be sure to check the **Date**, **Result**, and **Raw Score** options.
- 5. Users may also optionally mark the **Teacher-Scored** checkbox. With this option marked, the test is available to teachers to score as a grading task. When this option is marked, Date is required on the Parent Assessment.

6. Next, in the *Result Statuses* section, enter **Result Codes** and **Labels** for each assessment.

7. When finished, press **Save**.

Report Editor

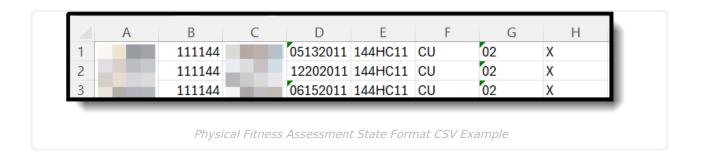

Field	Description
Start Date	The first day of the reporting period.
End Date	The last day of the reporting period.
Format	The format in which the report generates. Options include: Comma Separated (CSV) (State Format) and HTML.
Ad Hoc Filter	Select an Ad Hoc filter to further narrow report results.
Select Calendar	The calendar(s) from which data is pulled for the report.
Generate Extract OR Submit to Batch	Users have the option of submitting the report to the batch queue by clicking Submit to Batch instead of Generate Extract. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.

Generate the Report

- 1. Enter a **Start Date** for the report in *mmddyy* format or use the calendar icon to select a date.
- 2. Enter an **End Date** for the extract in *mmddyy* format or use the calendar icon to select a date.
- 3. Select a **Format** for report generation.
- 4. Optional: select an existing **Ad hoc Filter**.
- 5. Select the appropriate Calendar(s) from which to include data on the extract.
- 6. Click the Generate Extract button or the Submit to Batch button

Report Example

Report Layout

Data Element	Description	Location
SASID	The student's State ID number. Numeric, 10 digits	Census > People > Demographics > Student State ID Person.stateID
Reporting District	The State District Number for the district running the extract. Numeric, 7 digits	System Administration > Resources > District Information > State District Number District.number
District Student ID	The student's local student number. Numeric, 20 digits	Census > People > Demographics > Local Student Number Person.studentNumber
Date of Birth	The student's birth date. Date format, 8 characters (MMDDYYYY)	Census > People > Demographics > Birth Date Identity.birthDate

Data Element	Description	Location
School Program	Reports the Facility Code Override value.
