

Residual Data Report

Last Modified on 03/11/2024 8:46 am CDT

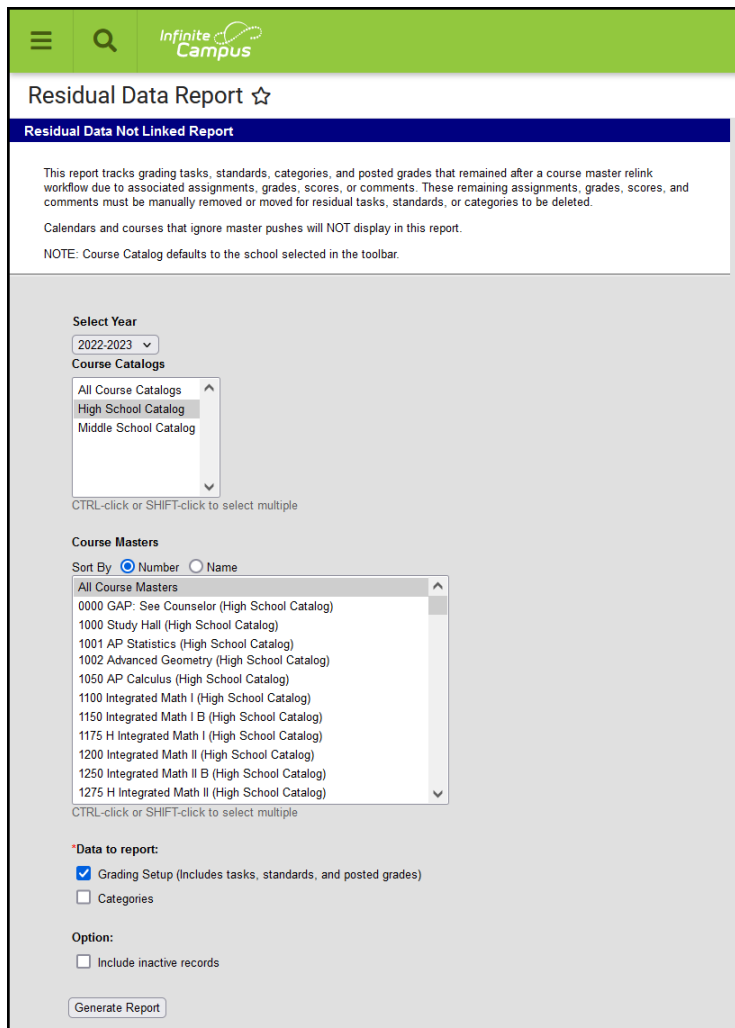

[Report Logic](#) | [Generate the Course Audit Report](#)

Classic Path: [Grading and Standards](#) > [Reports](#) > [Grading Setup](#) > [Residual Data](#)

Search Terms: Residual Data

When the [Push All Course Masters](#) tool is run to overwrite existing grading setup, any course-level grading setup that has assignments, scores, grades, and/or comments associated is not overwritten. Use the Residual Data report to collect that remaining grading setup that was not overwritten. This report includes grading tasks, standards, categories, and posted grades.

Assignments, scores, grades, and comments must be addressed manually, either by removing the data or realigning them to different tasks, standards, or categories. At this point, use the [Push All Course Masters](#) tool in *Overwrite* mode again to finish synchronizing setup.

The screenshot shows the 'Residual Data Report' interface. At the top, there's a green header with the Infinite Campus logo and navigation icons. Below the header, the title 'Residual Data Report ☆' is displayed. A blue banner indicates 'Residual Data Not Linked Report'. The main content area contains a description of the report's purpose: it tracks grading tasks, standards, categories, and posted grades that remained after a course master relink workflow. It also includes a note about course catalog defaults. The interface features several filters: 'Select Year' (set to 2022-2023), 'Course Catalogs' (a list with 'High School Catalog' selected), 'Course Masters' (a list of course numbers like '0000 GAP: See Counselor' and '1000 Study Hall'), and 'Data to report' (checkboxes for 'Grading Setup' and 'Categories', with 'Grading Setup' checked). There's also an 'Option' section with a checkbox for 'Include inactive records'. A 'Generate Report' button is at the bottom.

Report Logic

This report collects the assignments, scores, grades, and/or comments that are aligned to residual grading setup, including grading tasks, standards, and/or categories. Grading setup is considered residual if it would have been removed using the [Push All Course Masters](#) tool to overwrite course-level grading setup, but could not be removed because of associated assignments, scores, grades, and/or comments.

Generate the Course Audit Report

1. Select a **Year** to filter catalogs and then a **Course Catalog** to display a list of Course Masters. Options display based on the Calendar selected in the Campus toolbar.
 2. Select the **Course Master(s)** to include in the report. The list can be sorted by number or alphabetically by name.
 3. Indicate if the report should include **Grading Setup** (tasks, standards, and posted grades) and/or **Categories**.
 4. Mark the **Include inactive courses** checkbox marked to report courses not flagged as Active.
 5. Click the **Generate Report** button. The report displays in CSV format.
