

Calendar Details - Video

Last Modified on 03/29/2024 1:26 pm CDT

This video explains how Calendar Information Data Fields are used.

In late 2022 an Ignore Master Push checkbox was added that, when selected, prevents all courses aligned to the selected calendar from receiving grading setup pushed from course masters. Grading setup can still be pushed via Course Master Information or the Push All Course Masters tool. This is only applicable to districts that use Course Masters.
