[Behavior Setup](#) | [Behavior Management](#)

The Behavior module provides tools for monitoring and recording behavior incidents, for creating letters for parents/guardians regarding student's behavior and for generating reports related to behavior.

Behavior Setup

[Event Types](#) | [Resolution Types](#) | [Response Types](#)

Classic View: Behavior > Admin

The Behavior Settings tools are used to set up behavior events/incidents, resolutions, and responses. For the most part, these settings apply to the entire district, but there are instances where an event, resolution or response may only apply to a particular school.

See the core [Event Types](#) and [Resolution Types](#) articles for information on creating this information.

Event Types

Behavior Event Types organize behavior incidents into categories.

Event Type Setup

State Event Code (Mapping)

State Event Codes indicate the reason a student was subject to a disciplinary action. These are the official state codes to which all district-defined behavior events/incidents should be mapped. Behavior events/incidents that are not mapped to a state event code do NOT report.

Classification of Event Types

When Event Types and Resolution Types have the **Classification** field to a value that is NOT None, additional fields display on the Event and Resolution Detail editors. For example, an Event Type that has a Classification of Weapon displays the Weapon Type and Weapon Description fields.

Event Types can have a Classification of Harassment, Drugs or Weapons. Event types with a State Event Code related to one of these should be marked accordingly.

Behavior Resolution Types

State Resolution Code (Mapping)

State Resolution Codes (also referred to as **Discipline Action Types**) indicate the type of disciplinary action taken for a student. These are the official state codes to which all district-defined behavior resolutions should be mapped. Behavior resolutions that are not mapped to a state event code do NOT report.

Type

Describes the way the restraint or seclusion was performed.

The use of chemical restraint, mechanical restraint or prone restraint on a student in a public education program in the State of Oregon is strictly prohibited.

The use of physical restraint or seclusion on a student in a public education program in the State of Oregon is prohibited unless used in the following manner:

- The student's behavior imposes a reasonable threat of imminent, serious bodily injury to the student or others; and
- Less restrictive interventions would not be effective.

See additional guidance on using restraints on the Oregon Department of Education website.

Behavior Management

[Participant Fields](#) | [Resolution Fields](#)

The Behavior Management tool is used to record all behavior incidents that occur in a school.

Information is separated into Behavior Events, Participants in that event, and Resolutions to that event.

See the core [Behavior Management](#) article for information on recording and processing behavior incidents.

Details

Student came to class today (he's missed many days). When he walked in, he was wearing a hat. I asked him to please remove it. He ignored me. I then walked over to him and asked him to please remove it. He replied that he would "rather not". I told him I was asking him politely a third time, and if he refused I'd need to send an email. He is still wearing his hat.
