The Gifted tool tracks a student's participation in Gifted and Talented programming through enrichment, acceleration, and/or advanced curriculum. Schools can record a student's participation that includes a specific type of program or location or focus, note permission to participate, and generate a summary report of the entered data.

Records can overlap, meaning the student may have multiple Gifted records that do not have an End Date.

See the core [Gifted and Talented](#) for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Gifted and Talented records.
