Tool Search: Collection Extract

The Kansas Individual Data on Students Collection Extracts report student data for eight extracts that share the same reporting elements. The following is a list of the extracts and the current submission windows.

KIDS Collection Extract

Report Logic

[Report Logic for a Specific Collection](#) | [Data Filter From and To Dates](#) | [Attendance Filter To Date](#) | [Grade Level](#) | [School Entry Date, District Date, State Entry Date](#) | [Attendance Days](#) | [Minutes Enrolled](#)

Students are included in the Collection Extracts based on the selections in the extract editor. Students who are enrolled within a selected calendar and have an enrollment start or end date within the filter date range entered on the report editor report if they are also included in any Ad hoc filter or grade selected on the editor.

Fields not collected for a particular extract and fields where there is no data to populate (Suffix field, for example) report blank values, unless otherwise noted. The fields are still included in the output format.

Students are not included when (unless otherwise noted):

- Their enrollment record is marked as State Exclude or No Show.
- The grade level of enrollment is marked as State Exclude.
- The calendar of enrollment is marked as State Exclude.

Data Filter From and To Dates

Attendance Filter To Date

This date field displays on the EOYA and EXIT extracts. In response to COVID-19, when this field is populated:

- Membership Days (field 22) reports attendance up to and including the entered date.
- Attended Days (field 23) reports attendance up to and including the entered date.
- Truant Student (field 24) reports attendance days up to and including the entered date ([EOYA Extract only](#)).

Grade Level

The grade level or primary instructional level at which a student enters and receives services in a school or an educational institution during a given academic session.

Attendance Days

When generating the SMSC Extract, these values are determined by the **Data Filtered From Date** and **Data Filtered To Date** values entered on the Extract Editor.

Full Day Attendance

Membership days minus absent days on a day by day basis.

- Attended days calculate all minutes in a period. If a student is marked absent for the entire period, those minutes are subtracted from Attended Days.
- If a student is scheduled for multiple courses during the same period, the period length is used and not the total minutes of all classes to determine attendance.
- Attendance is based off the time the student was in school compared to the time the student was scheduled to be in school.
- Half-day kindergarten student's time is not divided by two.
- Cannot be greater than 366.

Partial Day Attendance

Partial Day attendance is calculated by dividing the total daily instructional minutes by all possible daily instructional minutes, leaving the fractional remainder of the AttendedDays to correctly reflect the partial attendance.

- Kindergarten students who are partial day calculate based on the half day attendance period that constitutes an entire attendance day.
- The most recent active primary enrollment is used to calculate attendedDays and membershipDays.
- Each day is counted once.

Minutes Enrolled

The minutes do not include the lunch period or transition time to and from lunch. Passing periods that are between classes a student attends can be counted. The entry can be zero for the September 20 snapshot in cases where the student attends a public school but does not qualify to be counted for funding purposes.

Schools and districts enter minutes. To compute FTE, KSDE divides this number by 360, except for those students who are also enrolled in an area vocational technical school or other postsecondary institution. The number of minutes for dual enrolled students is divided by 300 for FTE purposes. In cases where the number of minutes enrolled per day varies or the student does not attend school 5 days a week, sum all minutes for a normal 5-day week and divide by 5.

ESOL Participation

Logic looks at the Service Type of the student's EL Services record(s) and reports a value (in ESOL Participation field) as follows:

Report Editor

The following options are the available options on the KIDS Collection Extract Editor.

Field	Description
Extract Type	Selection indicates the extract that generates.

Field	Description
Data Filter From Date	Students are included in the report if they have an entry date or an exit date on or before the date entered in this field. The default entry is blank. Dates are entered in MMDDYY format, or use the calendar icon to select a date. See the Report Logic section for specific information on this field.
Data Filter To Date	Students are included in the report if they have an entry date or an exit date on or after the date entered in this field. This field auto-populates to the current date. Dates are entered in MMDDYY format, or use the calendar icon to select a date. See the Report Logic section for specific information on this field.
Attendance Filter To Date	<i>This field displays on the EOYA Extract.</i> This field is used to manage COVID-19 attendance changes. When populated, Membership Days, Attended Days and Truant Student totals are calculated up to and including the entered date.
Assessment Disaggregation Method 1 and 2	<i>Selection is only needed when generating the TEST Extract.</i> The extract contain a series of grouping indicator selections that when chosen on the report editor populates appropriate fields if the following criteria is met: <ul style="list-style-type: none"> • If a course is marked as Homeroom and the student is on the course roster and the Homeroom teacher's last name is selected in the Assessment Disaggregation Method 1 or 2, this field reports the teacher's last name; • If a course is assigned to one of the KIDS Subject codes and the student is on the course roster and the Assessment Disaggregation Method 1 of Subject Teacher's Last Name is selected in the Extract Editor, this field reports the Teacher's Last Name in the Grouping Indicator tied to the course subject selected; and • If a course is marked as Homeroom and has KIDS Subject Code assigned to it, the Teacher's Last Name reports if either Homeroom Teacher's Last Name or Subject Teacher's Last Name is selected in the Grouping Indicators.
Students without State IDs	When marked, students assigned a state ID number are not included in the report. This option only returns students who do not have a state ID number.
Social Security Number Optional	When marked, the last four digits of the student's Social Security number is not displayed. If not marked, the last four digits of the Social Security number are displayed.
Ad hoc Filter	A selection in this field causes the extracts to only include students included in the Ad hoc filter. For example, if an Ad hoc filter is selected that lists all 9th grade students, only those students are included in the extract.
File Revision Number	This is required for state submissions. The state only accepts a file name once, so the file name needs to be updated if submitting it more than one time.
Select Grades by State Code (TEST Only)	Used only for the TEST extract, select the grade levels to include on the extract.
Format	The KIDS Collection Extracts can be generated in the following ways. Use the State Format when submitting information to the DOE. Use the other formats for data review and testing. <ul style="list-style-type: none"> • State Format (tab delimited) • HTML • CSV • XML
Records Limit Per File (State Format only)	When the State Format (tab delimited) format option is selected, files are within a series of tab delimited files within a .zip file if the numeric value entered in this field is LESS than the number of records that are being exported.
Calendar Selection	At least one calendar needs to be selected in order to generate the Collection Extracts. Multiple calendars can be selected by using the CTRL and SHIFT keys.

Default Values

The following fields are assigned default values when they report in the selected extract type but the field where the data is stored isn't populated.

▶ [Click here to expand...](#)

Report Layout

[Report Header](#) | [Report Elements](#) | [Report Footer](#)

The following defines the Report Headers and Report Footers used in the KIDS Collection Extracts. Layouts for each individual extract are available for that specific extract.

Report Header

Element	Description
Record Type	2 bytes, must contain the characters TH
Extract Date	10 bytes, date the export file was created; MM/DD/YY format
Extract Time	8 bytes, time export file was created; HH:MM:SS format
Transmission ID	10 bytes, must match the Transmission ID field in the Footer Record
Version	10 bytes, always 19.0
Delimiter Character	25 bytes, 0X09

Report Elements

Data Element	Description	Collection	Location
Record Type	Type of extract being generated, chosen on the Report Editor. <i>Alphanumeric, 4 characters</i>	All	Data not stored
Accountability School Identifier	Indicates the school number of the student's enrollment. <i>Alphanumeric, 4 characters</i>	All	School Information > School Detail > School Number School.number
Resident District	District number where student resides (but not necessarily attends). When Home District field is blank, data reports from the State District Number field. <i>Alphanumeric, 5 characters</i>	All	Enrollments > State Reporting Fields > District Enrollment.residentDistrict District Information > District Info > State District Number District.number
Legal Last Name	Reports the legal last name of the student. When the Legal Last Name field is populated, information reports from that field. <i>Alphanumeric, 60 characters</i>	All	Identities > Identity Information > Profile Identity Information > Legal Last Name Identity.legalLastName Demographics > Person Information > Name Identity.lastName
