Curriculum Details are the metadata used to identify curriculum in the Curriculum Library. Details are entered on the Details tab and can be added to Assignments, Resources, and Folders.

The screenshot shows the 'Curriculum Details' interface for the assignment 'To Kill a Mockingbird > TKAM - Your Buildingsroman'. The interface includes a top navigation bar with 'Content', 'Details', and 'Reflections' tabs. The 'Details' tab is active, showing a form with the following sections:

- About**: A section for general information.
- Description**: A text area containing the text: 'This assignment is an essay asking students to write their own buildingsroman, or coming-of-age story.'
- Grade Levels**: A dropdown menu showing '10, 11'.
- Subjects**: A dropdown menu showing 'English Language and Literature'.
- Standards**: A dropdown menu showing '2 standards'.
- English Language Arts HS2**: A dropdown menu showing 'Writing'.

At the bottom of the interface, a note states: 'Curriculum Details provide metadata to help find curriculum in the Library.'

Add Details

1. Open a piece of curriculum, such as an assignment or folder.
2. Click the **Details** tab.
3. Click **Edit**
4. Enter a **Description** about the content of the curriculum.
5. Select the **Grade Levels** and **Subject** of the curriculum.
6. Select **Standards** to which the curriculum applies. These may be aligned to the curriculum for grading, or not. Search for standards if desired. The *Context* options indicate which standards are currently being shown - those aligned to the [District](#), to the [Course](#), or already selected for this curriculum.

7. Click **Save** when finished.

Considerations for Sharing

Details help users of the Curriculum Library to find the curriculum they're looking for. Curriculum is shared by folder; Details should be entered for the folder, and all included curriculum if desired, prior to sharing the folder. After curriculum is shared, Details can only be modified by removing a folder from the library, editing Details, and sharing the folder again.
