

# Online Learning Extract (Minnesota)

Last Modified on 03/11/2024 8:44 am CDT

[Report Logic](#) | [Report Editor Details](#) | [Generating the Extract](#) | [Online Learning Extract Layout](#)

Tool Search: Online Learning Extract

Online learning provides a means for students to continue, expand or enhance their education. The Online Learning Extract gathers information about students enrolled in courses which are administered online.

Online Learning Extract Editor

## Report Logic

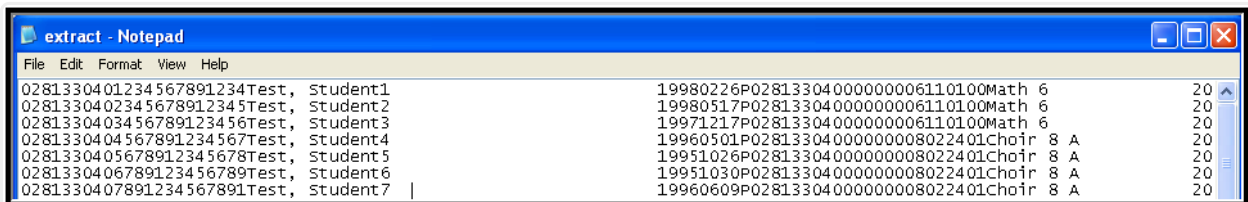

- The course must be flagged as being an Online Learning class for students in that course to appear in the report.
  - **Classic View:** [Grading & Standards > Grading Tasks > Online Learning](#)
- Calendars, Grades and Students marked State Exclude will no be included in the report.

## Report Editor Details

Editor Field	Description
<b>Calendars</b>	The calendar(s) from which data is pulled from the report. Courses attached to these calendars will appear on the report.
<b>Format</b>	The format in which the report will generate. Options include State Format (Fixed Width), CSV, XML and HTML. CSV, XML and HTML formats are used for data review and verification, while State Format should be used when submitting reports to the state.
<b>Report Student Legal Identities When Provided</b>	Indicates if Demographics fields should report from the <i>Protected Identity Information</i> area of the Identities tab.
<b>Student Ad Hoc Filter</b>	Limits student records reported to those that meet the parameters of an existing Ad hoc Filter.
<b>Generate Extract / Submit to Batch</b>	Users have the option of submitting the report request to the batch queue by clicking Submit to Batch instead of Generate Extract. This process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the <a href="#">Batch Queue</a> article.

## Generating the Extract

1. Select the **Calendar(s)** to be included in the report.
2. Indicate the **Format** in which the report should generate.
3. Indicate if Demographics fields should **Report Student Legal Identities When Provided**.
4. Select a **Student Ad Hoc Filter** to limit report results to a pre-defined filter.
5. Click the **Generate Extract** button to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.
