Tool Search: SIRS Extracts

The Assessment Accommodation Modification Fact Extract reports test modification data for students who have taken assessments with a State Code of **RCT** or **ALTRCT** on or before the Effective Date when the report is generated. A record reports for each testing modification selected for the associated assessment.

The Campus location for the State Code is Test Setup > Tests > Test Detail > Test Type > State Test > State Code.

SIRS Extracts ☆ Reporting > NY State Reporting > SIRS Extracts

NY State Repository System Extracts

This tool will extract student data for SIRS data collection. Choose CSV format when uploading to SIRS, otherwise choose one of the testing/debugging formats.

Extract Options

Report Logic

- When a student has more than one enrollment, one record reports for the student for the

calendar where their enrollment dates fall within the assessment date.

- When a student has more than one enrollment in separate calendars/schools as of the effective date, the calendars are selected when generating the report, and the student took the assessment in each calendar, a record reports for each Testing Modification for each assessment for each calendar.

Extract Editor Field Descriptions

Field	Description
Extract Type	The SIRS Extract to run.
Effective Date	The date for which information reports.
Included State Grade Levels	Identifies the state grade levels to include in the report.
Test State Codes	The state tests on which to report.
Format	The Format in which the report should generate. Options are State Format (CSV) and HTML. Use State Format for reporting information to the state and the other types for data review and verification.
Ad Hoc Filter	Selecting a filter limits the results to only those included in the filter.
Column Headers	Indicates whether Column Headers should be included in the report. This dropdown list applies to State Format (CSV).
Generate Extract/Submit to Batch	Users have the option of submitting a report request to the batch queue by clicking Submit to Batch instead of immediately generating the report by clicking Generate Extract . The batch process allows larger reports to generate in the background without disrupting the use of Campus. See the Batch Queue article for more information about submitting a report to the batch queue.
Select Calendars	Identifies which Calendar(s) should be included in the report. Calendars can be sorted by active year, by school or by year.

Extract Layout

Element Name	Description	Campus Location
--------------	-------------	-----------------

Element Name	Description	Campus Location
District Code	<p>The identification number of the district.</p> <p>Reports the District Number Override when populated. When null, the prefix NY plus the State District Number reports.</p> <p><i>Alphanumeric, 8 digits</i></p>	<p>School Information > School > District Number Override</p> <p>school.districtIrnOverride</p> <p>District Information > District Number</p> <p>District.number</p>
Test Description	<p>A short description of the assessment type.</p> <p><i>Alphanumeric, 15 characters</i></p>	<p>Attribute/Dictionary > Test > State Code > Name</p> <p>Test.TestCode</p>
Assessment School Year	<p>This field always reports as "June 30" of the reported school year.</p> <p><i>Date field, 10 characters, yyyy-06-30</i></p>	<p>Calendar Information > End Date (year only)</p> <p>Calendar.endDate</p>
Item Description	<p>A long description of the assessment type.</p> <p><i>Alphanumeric, 100 characters</i></p>	<p>Test Setup > Tests > Test Detail > Test Name</p> <p>Test.name</p>
Test Date	<p>The date that a particular assessment is given. This field reports the first date on which the test is administered. If the student takes the test on a make-up day, the original date on which the assessment was administered still reports.</p> <p>If the assessment was offered during a range of dates, this field reports the first date the assessment was permitted to be administered.</p> <p><i>Date field, 10 characters, yyyy-mm-dd</i></p>	<p>Test Setup > Tests > Test Detail > Effective Date</p> <p>TestScore.date</p>
Student ID	<p>The student's Local Student Number.</p> <p><i>Alphanumeric, 12 characters</i></p>	<p>Demographics > Person Identifiers > Local Student Number</p> <p>Person.studentNumber</p>

Element Name	Description	Campus Location
