Assessment Accommodation Modification Fact Extract Editor

Report Logic

- If a student has more than one enrollment, one record reports for the student for the calendar where their enrollment dates fall within the assessment date.
- If a student has more than one enrollment in separate calendars/schools as of the effective date, the calendars are selected when generating the report, and the student took the assessment in each calendar, a record reports for each Testing Modification for each assessment for each calendar.

Extract Editor Field Descriptions

Field	Description
Extract Type	The SIRS Extract to run.
Effective Date	The date for which information reports.
Included State Grade Levels	Identifies the state grade levels to include in the report.
Test State Codes	The state tests on which to report.
Format	The Format in which the report should generate. Options are State Format (CSV) and HTML. Use State Format for reporting information to the state and the other types for data review and verification.
Ad Hoc Filter	Selecting a filter limits the results to only those included in the filter.
Column Headers	Indicates whether Column Headers should be included in the report. This dropdown list applies to State Format (CSV).
Generate Extract/ Submit to Batch	Users have the option of submitting a report request to the batch queue by clicking Submit to Batch instead of immediately generating the report by clicking Generate Extract . The batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.
Select Calendars	Identifies which Calendar(s) should be included in the report. Calendars can be sorted by active year, by school or by year.
