Tool Search: SIRS Extracts

The Assessment Accommodation Modification Fact Extract reports test modification data for students who have taken assessments where the State Code is **RCT** and **ALTRCT** on or before the Effective Date when the report is generated. A record reports for each testing modification selected for the associated assessment.

The Campus location for the State Code is *Test Setup > Tests > Test Detail > Test Type > State Test > State Code*.

The screenshot shows the 'SIRS Extracts' tool interface. At the top, there is a breadcrumb trail: 'Reporting > NY State Reporting > SIRS Extracts'. Below this is a blue header 'NY State Repository System Extracts' with a note: 'This tool will extract student data for SIRS data collection. Choose CSV format when uploading to SIRS, otherwise choose one of the testing/debugging formats.'

The main configuration area is divided into 'Extract Options' and 'Select Calendars'. Under 'Extract Options', there are dropdowns for 'Extract Type' (set to 'Assessment Acc Mod Fact'), 'Effective Date' (set to '08/06/2024'), 'Included State Grade Levels' (set to 'All Grades'), 'Test State Codes' (a list including 'All Tests', 'CTE:CTE', 'NYSAA:NYSAA', 'RCT:RCT', 'Regents:Regents', 'ALTRCT:ALTRCT', 'ALTREG:ALTREG', 'NYSESLAT:NYSESLAT', and various COSF codes), 'Format' (set to 'State Format(CSV)'), 'Ad Hoc Filter', and 'Column Headers' (set to 'Exclude'). There are 'Generate Extract' and 'Submit to Batch' buttons.

Under 'Select Calendars', there are radio buttons for 'active year', 'list by school', and 'list by year'. A list of calendars is shown, with '24-25' and '24-25 Scarsdale High School' selected. A note at the bottom of the calendar list says 'CTRL-click or SHIFT-click to select multiple'.

At the bottom of the interface, there is a 'Refresh' button, a 'Show top' dropdown (set to '50'), and a filter for 'tasks submitted between' with dates '07/30/2024' and '08/06/2024'. Below this is a 'Batch Queue List' table with columns for 'Queued Time', 'Report Title', 'Status', and 'Download'.

## Report Logic

- If a student has more than one enrollment, one record reports for the student for the calendar where their enrollment dates fall within the assessment date.

- If a student has more than one enrollment in separate calendars/schools as of the effective date, the calendars are selected when generating the report, and the student took the assessment in each calendar, a record reports for each Testing Modification for each assessment for each calendar.

## Extract Editor Field Descriptions

Field	Description
<b>Extract Type</b>	The SIRS Extract to run.
<b>Effective Date</b>	The date for which information reports.
<b>Included State Grade Levels</b>	Identifies the state grade levels to include in the report.
<b>Test State Codes</b>	The state tests on which to report.
<b>Format</b>	The Format in which the report should generate. Options are State Format (CSV) and HTML. Use State Format for reporting information to the state and the other types for data review and verification.
<b>Ad Hoc Filter</b>	Selecting a filter limits the results to only those included in the filter.
<b>Column Headers</b>	Indicates whether Column Headers should be included in the report. This dropdown list applies to State Format (CSV).
<b>Generate Extract/ Submit to Batch</b>	Users have the option of submitting a report request to the batch queue by clicking <b>Submit to Batch</b> instead of immediately generating the report by clicking <b>Generate Extract</b> . The batch process allows larger reports to generate in the background without disrupting the use of Campus. See the <a href="#">Batch Queue</a> article for more information about submitting a report to the batch queue.
<b>Select Calendars</b>	Identifies which Calendar(s) should be included in the report. Calendars can be sorted by active year, by school or by year.

## Extract Layout

Element Name	Description	Type, Format and Length	Campus Database	Campus Location
--------------	-------------	-------------------------	-----------------	-----------------

Element Name	Description	Type, Format and Length	Campus Database	Campus Location
<b>District Code</b>	The identification number of the district. The prefix "NY" is added to the district number. For example, if the district number is 662001, the District Code is NY662001.	Alphanumeric, 8 digits	District.number	District Information > District Number
<b>Test Description</b>	A short description of the assessment type.	Alphanumeric, 15 characters	Test.TestCode	Attribute/Dictionary > Test > State Code > Name
<b>Assessment School Year</b>	This field always reports as "June 30" of the reported school year.	Date field, 10 characters yyyy-06-30	Calendar.endDate	Calendar Information > End Date (year only)
<b>Item Description</b>	A long description of the assessment type.	Alphanumeric, 100 characters	Test.name	Test Setup > Tests > Test Detail > Test Name

Element Name	Description	Type, Format and Length	Campus Database	Campus Location
<b>Test Date</b>	<p>The date that a particular assessment is given. This field reports the first date on which the test is administered. If the student takes the test on a make-up day, the original date on which the assessment was administered still reports.</p> <p>If the assessment was offered during a range of dates, this field reports the first date the assessment was permitted to be administered.</p>	<p>Date field, 10 characters</p> <p>yyyy-mm-dd</p>	TestScore.date	Test Setup > Tests > Test Detail > Effective Date
<b>Student ID</b>	The student's Local Student Number.	Alphanumeric, 12 characters	Person.studentNumber	Demographics > Person Identifiers > Local Student Number
<b>School Year Date</b>	This field always reports as "June 30" of the reported school year.	<p>Date field, 10 characters</p> <p>yyyy-06-30</p>	Calendar.endDate	Calendar Information > End Date (year only)
<b>Accommodation Modification Code</b>	This element is used to indicate that the student used one or more test accommodations on the reported examination.	Alphanumeric, 10 characters	TestScore.modification, TestScore.modification(2-5)	Test Setup > Tests > Testing Modifications 2-5
<b>Acc Mod Type Code</b>	This field always reports <b>ACC</b> .	Alphanumeric, 3 characters	Not dynamically stored.	Not dynamically stored.

Element Name	Description	Type, Format and Length	Campus Database	Campus Location
<b>Acc or Mod Used Indicator</b>	This field reports blank.			
<b>Acc or Mod In IEP Indicator</b>	This field reports blank.			
<b>Student Snapshot Date</b>	This field reports blank.			
<b>Acc Mod Comment</b>	This field reports blank.
