Tool Search: SIRS Extracts

The Assessment Accommodation Modification Fact Extract reports test modification data for students who have taken assessments with a State Code of **RCT** or **ALTRCT** on or before the Effective Date when the report is generated. A record reports for each testing modification selected for the associated assessment.

The Campus location for the State Code is Test Setup > Tests > Test Detail > Test Type > State Test > State Code.

## **Report Logic**

· When a student has more than one enrollment, one record reports for the student for the

- calendar where their enrollment dates fall within the assessment date.
- When a student has more than one enrollment in separate calendars/schools as of the
  effective date, the calendars are selected when generating the report, and the student took
  the assessment in each calendar, a record reports for each Testing Modification for each
  assessment for each calendar.

## **Extract Editor Field Descriptions**

| Field                                      | Description   |  |
|--|---|--|
| Extract<br>Type                            | The SIRS Extract to run.  |  |
| Effective<br>Date                          | The date for which information reports.   |  |
| Included<br>State<br>Grade<br>Levels       | e e   |  |
| Test<br>State<br>Codes                     |   |  |
| Format                                     | The Format in which the report should generate. Options are State Format (CSV) and HTML. Use State Format for reporting information to the state and the other types for data review and verification.  |  |
| Ad Hoc<br>Filter                           | Selecting a filter limits the results to only those included in the filter.   |  |
| Column<br>Headers                          | Indicates whether Column Headers should be included in the report. This dropdown list applies to State Format (CSV).  |  |
| Generate<br>Extract/<br>Submit to<br>Batch | Users have the option of submitting a report request to the batch queue by clicking <b>Submit to Batch</b> instead of immediately generating the report by clicking <b>Generate Extract</b> . The batch process allows larger reports to generate in the background without disrupting the use of Campus. See the <u>Batch Queue</u> article for more information about submitting a report to the batch queue. |  |
| Select<br>Calendars                        | Identifies which Calendar(s) should be included in the report. Calendars can be sorted by active year, by school or by year.  |  |

## **Extract Layout**

| <b>Element Name</b> | Description | <b>Campus Location</b> |
|---------------------|-------------|------------------------|
|                     |             |                        |

| <b>Element Name</b>       | Description   | <b>Campus Location</b>  |
|---------------------------|---|---|
| District Code             | The identification number of the district.  Reports the District Number Override when populated. When null and:  • When the School Type contains a 1 in the value field in the data dictionary, the prefix "NY" is added to the first 6 digits of the BEDS Code.  • When the School Type does not contain a 1 in the value field in the data dictionary, a value of 8 plus the last 7 digits of the State District Number report.  Alphanumeric, 8 digits | School Information > School > District Number Override  school.districtIrnOverride  School Information > School > District Number Override  school.districtIrnOverride  District Information > District Number  District.number |
| Test Description          | A short description of the assessment type. <i>Alphanumeric, 15 characters</i>  | Attribute/Dictionary > Test > State Code > Name  Test.TestCode  |
| Assessment<br>School Year | This field always reports as "June 30" of the reported school year.  Date field, 10 characters, yyyy-06-30  | Calendar Information > End Date (year only)  Calendar.endDate   |
| Item Description          | A long description of the assessment type.  Alphanumeric, 100 characters  | Test Setup > Tests > Test Detail > Test Name  Test.name   |
| Test Date                 | The date that a particular assessment is given. This field reports the first date on which the test is administered. If the student takes the test on a make-up day, the original date on which the assessment was administered still reports.  If the assessment was offered during a range of dates, this field reports the first date the assessment was permitted to be administered.  Date field, 10 characters, yyyy-mm-dd                          | Test Setup > Tests > Test Detail > Effective Date  TestScore.date   |

| Element Name                     | Description  | <b>Campus Location</b>  |
|----------------------------------|--|---|
| Student ID                       | The student's Local Student Number.  Alphanumeric,12 characters  | Demographics > Person Identifiers > Local Student Number  Person.studentNumber                      |
| School Year Date                 | This field always reports as "June 30" of the reported school year.  Date field, 10 characters, yyyy-06-30                                       | Calendar Information > End Date (year only)  Calendar.endDate                                       |
| Accommodation  Modification Code | This element is used to indicate that the student used one or more test accommodations on the reported examination.  Alphanumeric, 10 characters | Test Setup > Tests > Testing Modifications 2-5  TestScore.modification, TestScore.modification(2-5) |
| Acc Mod Type<br>Code             | This field always reports <b>ACC</b> . <i>Alphanumeric, 3 characters</i>   | Not dynamically stored.   |
| Acc or Mod Used Indicator        | This field reports blank.  |   |
| Acc or Mod In IEP Indicator      | This field reports blank.  |   |
| Student Snapshot<br>Date         | This field reports blank.  |   |
| Acc Mod<br>Comment               | This field reports blank.  |   |
