Student Lite Editor

Report Logic

Students enrolled in the calendar(s) selected on the extract editor report.

Students are NOT included when:

- their enrollment record is marked as State Exclude;
- their enrollment record is marked as No Show;
- their Grade Level of enrollment is marked as State Exclude or
- their Calendar of enrollment is marked as State Exclude.

When a student has multiple non-state-excluded enrollment records in a given calendar, a single record reports based on the enrollment record that has the highest primacy ranking based on the following chart:

| Type | Primacy |
|---|---------|
| P: Primary (when more than one, most recent start date) | 1 |
| S: Partial (when more than one, most recent start date) | 2 |
| N: Sped (when more than one, most recent start date) | 3 |

Both schools report when a student has multiple enrollment records in a district, and the Crisis Event Code starts within the date range of both enrollments.
