Tool Search: English Learners Report

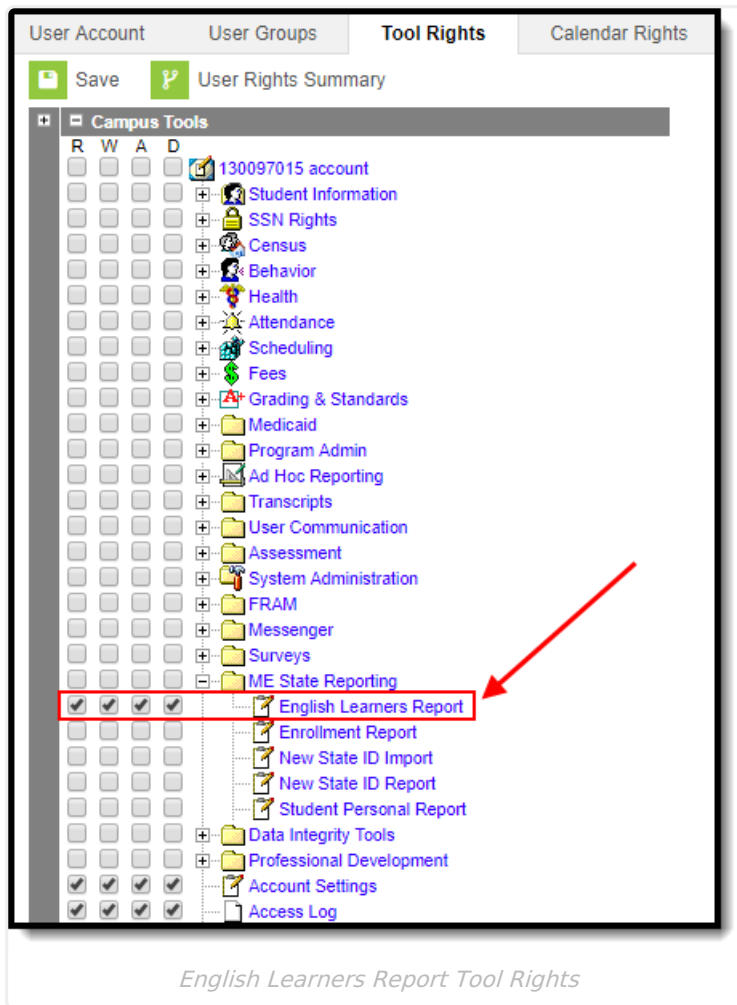

The English Learners Report extracts data identifying English Learner students for upload into MEDOE's state system.

Maine English Learners Report Editor

Tool Rights

Users must have at least **R**(ead) tool rights in order to generate the English Learners Report.

Report Logic

Logic determines the report population as follows:

- Report one record for each student who has an EL record in the calendar(s) selected in the extract editor.
- An EL record must have one of the following Program Status values:
 - EL
 - Exited EL
 - If EL Program Status = Exited EL, the Program Exit Date must fall within the calendar(s) selected in the extract editor.
 - The student must have at least one enrollment record in the calendar(s) selected in the extract editor.
- The report excludes any records tied to the following:
 - Records where the EL Identified Date is greater than the Effective Date on the extract editor
 - Enrollment records where State Exclude = True
 - Enrollment records where No Show = True
 - Grade Levels marked as Exclude from state reporting

- Records tied to calendars marked as Exclude
- Enrollment records where the Start Date is greater than the Effective Date entered on the extract editor.
- If the student has multiple enrollment records, the record with a Service Type = Primary is reported.
 - If multiple enrollment records are marked as Primary or none of them are marked as Primary, the record with the most recent Start Date is reported.
 - If the student has multiple enrollment records with the same Start Date, the record with the lowest enrollmentID is reported.

Generating the Extract

1. Enter the **Effective Date**. Data as of this date will report.
2. Select which **State Grade Levels** will report data.
3. Select which **Calendars** will report data.
4. Select the report **Format**. For submission to the state, select the CSV (State Format).
5. To further narrow results, select an **Ad Hoc Filter** (optional).
6. Decide if you want to generate the report or send the report to the state:

Generate Report	Click the Generate Report button to immediately generate the report. The report will appear in a separate window in the designated format.
Submit to Batch	Clicking the Submit to Batch button to send the extract to the Batch Queue List. Batch Queue functionality provides the ability to schedule when the extract is generated and allows users to navigate away from the Special Education Report editor while the extract is being built. The Batch Queue List also lets users view and access historical Special Education Reports which were run through the Batch Queue tool.
Send to State	<p>Clicking the Send to State button will send the report data to the state system (Synergy). Reports sent to the state will appear in the Web Service Queue List where you can view its current status (Status), view all data sent to the state (View Submission), and review any errors returned from the state (View Result).</p> <div style="background-color: #fff9c4; padding: 10px; border: 1px solid #ccc;"> <p>This functionality requires proper Web Service Account and Web Service Configuration setup.</p> </div>

Understanding the English Learners Report

Use the table below to better understand what each report column means and how it reports data.

Column	Description	Format and Length	Database Location	Campus GUI Location
SAUID	Logic reports the State District Number associated with the student's enrollment record.	Numeric, 4 digits	District.number	System Administration > Resources > District Info > State District Number
