Preschool Student Course Assignment

Report Logic

A record reports for each roster record a student has in every class (Course Section). The student must have had an active enrollment in State Grade Level 14 (includes Primary (first), Partial (second) or Special Education (third)) within the selected calendar on the extract editor, and must be enrolled within the entered start and end dates entered on the extract editor.

If the student has multiple enrollments, the enrollment with the most recent start date and lowest enrollment ID reports.

Student DO NOT report when:

- The enrollment is marked as State Exclude or No Show;
- The grade level of enrollment is marked as Exclude from State Reporting;
- The calendar of enrollment is marked as Exclude.

The reported courses and sections must:

- Be scheduled into the selected Calendar.
- Have a Course State Code.
- Be an active course.

The first term's Start Date into which the course is scheduled must be less than or equal to the End Date entered on the extract editor. The last term's Start Date into which the course section is scheduled must be null or greater than or equal to the extract editor's start date.

The student's start date into the section (roster start date) must be less than or equal to the entered End Date on the extract editor. The student's end date into the section (roster end date) must be null or greater than or equal to the extract editor's start date.

Report Editor

The following fields are available for selection.

Field	Description
Extract Type	Determines which Student Course Assignment Extract generates. For this extract, choose Preschool Student Course Assignment .
Start Date	Entered date reflects the start date of enrollment records to return. Dates are entered in <i>mmdyy</i> format or choose the calendar icon to select a date. A start date must be entered to generate the report.
End Date	Entered date reflects the end date of enrollment records to return. Dates are entered in <i>mmdyy</i> format or choose the calendar icon to select a date. An end date must be entered to generate the report.

Field	Description
File Identifier	Indicates the 3-digit number attached to the end of the file name and is used to differentiate the file from the other files generated.
Students without State IDs	When marked, the report returned students who do not have state IDs assigned.
Strip Apostrophes	<p>When marked, the following marks are removed from student names and other reported data:</p> <ul style="list-style-type: none"> • Apostrophes ('), Commas (,), Periods (.) • Umlaut (Ö) • Tilde (Ñ) • Grave Accents (Ò), Acute Accents (Ó) • Circumflex (Ô) <p>When not marked, these marks are not removed.</p>
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
Format	Determines how the report generates. Use the State Format (Comma Delimited) when submitting the report to the state. Use the HTML or Tab Delimited option when reviewing data prior to state submission.
Student Selection	<p>Select students by choosing one or more grade levels or a saved ad hoc filter to use when generating this report.</p> <p>Only those students in the selected grade levels report if they meet the reporting requirements. Only those students included in the filter report if they meet the reporting requirements.</p>
Report Generation	The report can be generated immediately using the Generate Extract button. When there is a larger amount of data chosen (several calendars, large date range, etc.), use the Submit to Batch button, which allows the user to choose when the report is generated. See the Batch Queue article for more information.
Calendar Creation	At least one calendar needs to be selected for the report to generate. Calendars can be chosen by Active Year , by School or by Year . If a calendar is selected in the Campus toolbar, that calendar is automatically selected.

Generate the Report

1. Select the **Preschool Student Course Assignment** from the **Extract Type** field.
2. Enter the **Start Date** and **End Date** for the report.
3. Enter a **File Identifier**.
4. Select the **Students w/o stateIDs** checkbox to include students without state IDs within the report.

5. If desired, mark the **Strip Apostrophes** checkbox.
6. If desired, mark the **Report Protected Identities** checkbox.
7. Select **Format** in which to generate the report.
8. Select students by choosing **Grade Levels** or an **Ad hoc Filter** from the dropdown list.
9. Select which calendars to include.
10. Select an **Ad hoc Filter** to reduce the students included in the report (optional).
11. Select the **Generate Extract** button. The report displays in a separate window in the designated format.

This report can also be submitted to the [Batch Queue](#) for generation at a later time.
