Tool Search: Ed-Fi State ID Tool

The State ID Tool allows users to search for and request new Ed-Fi IDs and Student State IDs. The State ID Tool can also be used to print a list of ID requests.

State ID Tool

To view and request new Ed-Fi IDs and Student State IDs, users must have at least **R**(ead) and **W**(rite) rights to the State ID Tool.

Prerequisites

- Ed-Fi functionality must be enabled via the Enable Ed-Fi System Preference.
- To use Ed-Fi tools effectively, appropriate values must be set in the Ed-Fi Configuration tool. This ensures Campus is communicating with Ed-Fi and successfully sending data to their servers.
- Ed-Fi IDs should be assigned to users via the Demographics tool.

The user can assign or link an Ed-Fi ID from this location if desired. • Displays blank if the request is pending. • Displays 'Student Missing State ID and Ed-Fi ID' if a State ID or Ed-Fi ID does not exist for the individual.

Generate State IDs

The State ID Tool allows users to generate State IDs for users. The State ID Requests Editor displays all records of students that do not have an Ed-Fi ID or Student State ID but have an enrollment in the active year. This list can be filtered by using the Status Type dropdown under Filter Options.

Review ID Requests

Requests with a status of 'Review' need to be reviewed before the ID can be generated. Users can select an identity to assign the ID to, assign a new Ed-Fi ID, or Link Ed-Fi IDs if multiple identities are found.

The **Use This Person** button selects the identity that will receive the new ID.

If you cannot locate the person in the Ed-Fi results, assign a new ID to the person by selecting the **Assign New Ed-Fi ID** button. A pop-up appears, prompting the user to enter a reason for the request and submit it. Once the request is accepted, a message will indicate that the new UIC request has been successfully sent to MDE.

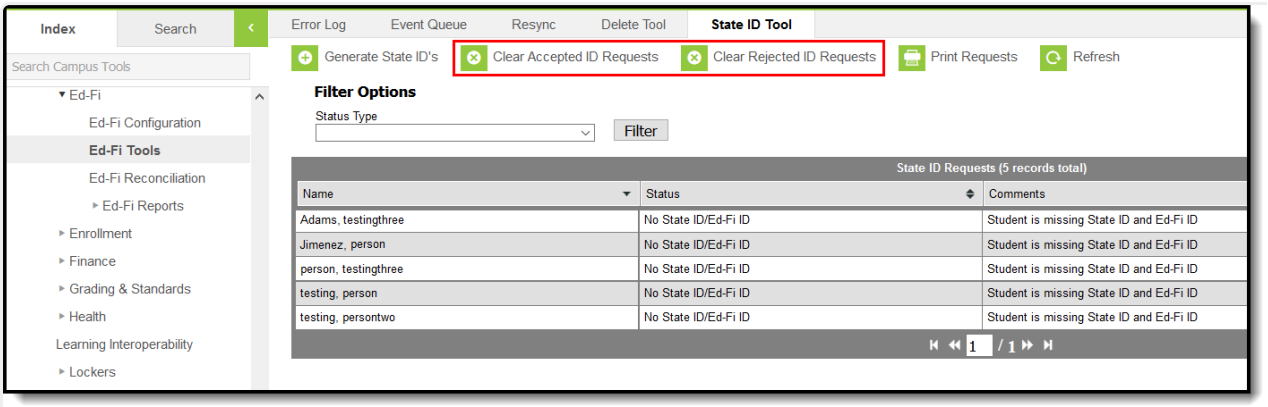

If multiple identities are displayed in the search results, they can be linked using the **Identity Link** drop list and **the Link Ed-Fi IDs** button. The user must select one identity to set as Primary to link IDs. Multiple identities can be set to Linked. Once the Link Ed-Fi IDs button is selected, a pop-up will appear, and the user must indicate the reason for linking the identities.
