- Ed-Fi IDs should be assigned to users via the Demographics tab.

Tool Rights

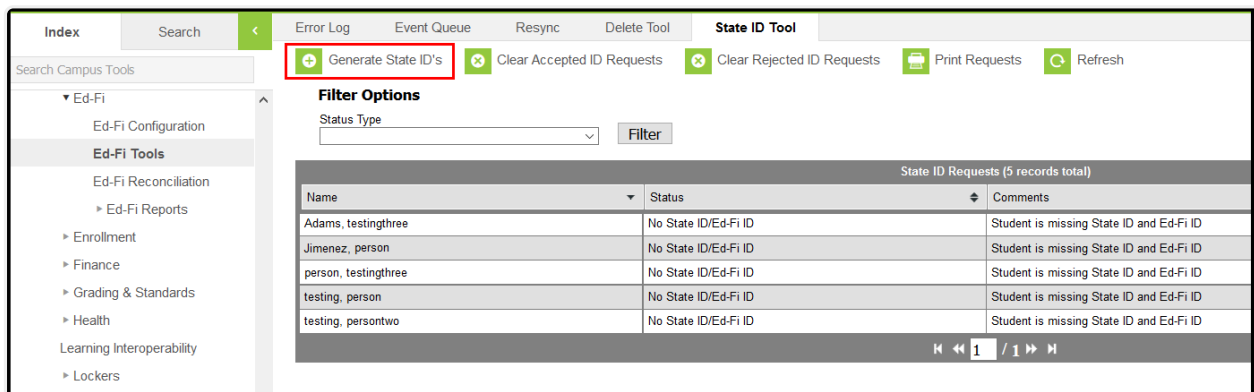

In order to view and request new Ed-Fi IDs and Student State IDs, users must have at least **R**(ead) and **W**(rite) rights to the State ID Tool.

Generate State ID's

The State ID Tool allows users to generate State ID's for users. The State ID Requests Editor displays all records of students that do not have an Ed-Fi ID or Student State ID but have an enrollment in the active year. This list can be filtered by using the Status Type dropdown under Filter Options.

Review ID Requests

Requests with a status of 'Review' need to be reviewed before the ID can be generated. Users can select an identity to assign the ID to, assign a new Ed-Fi ID or Link Ed-Fi ID's if multiple identities are

found.

The **Use This Person** button can be used to select the identity that will receive the new ID.

If you cannot locate the person within Ed-Fi results, assign the person a new ID by selecting the **Assign New Ed-Fi ID** button. A pop-up displays in which the user must enter a reason for the request and then submit the request. Once the request has been accepted, a message will indicate that the new UIC request was successfully been sent to MDE.

If multiple identities are displayed based on the search results, the identities can be linked by using the **Identity Link** droplist and **Link Ed-Fi ID's** button. The user must select one identity to be set as Primary in order to link ID's. Multiple identities can be set to Linked. Once the Link Ed-Fi ID's button has been selected, a pop-up will display and the user must indicate the reason for linking the identities.
