Tool Search: Pre-School

The Pre-School tool allows schools to collect data about students in Kentucky who are enrolled in preschool programs, including state and federally funded programs as well as tuition-based programs.

The screenshot shows the 'Pre-School' tool interface. At the top, there is a breadcrumb trail: 'Student Information > State Programs > Pre-School'. Below this, there are buttons for 'Add Pre-School Service', 'Save', 'Delete', and 'Documents'. The main content area is titled 'Pre-School Services' and displays a list of services. One service is shown: '98 ECH 17-18 Zachary Taylor Eleme 08/30/2017 (1 Service)'. Below the service list, there is a 'PreSchool' section with various fields for enrollment, start/end dates, preschool type, family component, setting, assessment instrument, and assessment modality.
