Tool Search: Schedule

The Scheduling Messenger allows users to send messages to a student's current Teacher(s)/Staff. Sections that were modified today by the current user display by default in the Recipient Selection list, making it easier to notify teachers about roster changes. A default message is provided, but the user may create and save their own templates. Recipient filtering options allow users to decide which of the student's teachers receive the message. Teachers/Staff receive one message for each course/section.

## Troubleshooting

Problem	Solution
An expected course is not appearing in the Recipient Selection.	Verify the course <a href="#">section</a> has a Primary Teacher assigned on the <a href="#">Sections</a> tab in Campus. Only courses with a Primary Teacher appear in the All Teachers, Primary Teachers, and Secondary Teachers results.
