Path: Reporting > Ad Hoc Reporting > Filter Designer

The following queries relate to census and/or staff information and require the Census/Staff radio button to be selected on the main Filter Designer page.

These sample queries are for example purposes only. They are a starting point for understanding how to use this tool. Requests to design, modify, or troubleshoot a Pass-Through Query are subject to a fee.

Staff Members with Individual Tool Rights

This query returns staff members with individual tool rights rather than group tool rights, as recommended.

Box A

```
INNER JOIN UserAccount ua ON ua.personID = individual.personID
INNER JOIN UserToolRights utr ON utr.userID = ua.userID
INNER JOIN EmploymentAssignment ea on ea.personID = ua.personID
```

Box B

```
and ua.disable = 0
and ea.endDate is NULL
order by individual.lastname, individual.firstname
```

Students Marked as No Shows

This query returns students who have been flagged as "no-show" students (those who have enrollment records but have never actually attended school). The user will need the calendarID of the desired school calendar (this example uses a value of 80).

This query cannot be performed in Student mode. No-show students are excluded from the student view, so this query must search across all people.

Box A

```
INNER JOIN Enrollment e ON e.personID = individual.personID
```

Box B

```
AND e.noshow = 1 AND e.calendarID = 80
```

People with a Staff Number but no District Assignment Record

This query returns staff members who are not linked to a district assignment.

Box A

```
LEFT OUTER JOIN EmploymentAssignment e ON e.personID = individual.personID
```

Box B

```
AND individual.staffNumber IS NOT NULL AND e.personID IS NULL
```

Staff Members with Disabled User Accounts

This query returns staff members who have disabled user accounts.

Box A

```
INNER JOIN UserAccount ua ON ua.personID = individual.personID
```

Box B

```
AND individual.staffNumber IS NOT NULL AND ua.homepage IS NULL AND ua.disable = 1
```

Staff Members who have not Logged In

This query returns staff members who have not logged into their accounts between the specified date range.

Box A

```
INNER JOIN UserAccount ua ON
ua.personID = individual.personID LEFT OUTER JOIN SecurityAccess sa ON
sa.userID = ua.userID AND sa.[timestamp] BETWEEN 'MM/DD/YYYY' AND
'MM/DD/YYYY'
```

Box B

```
AND individual.staffNumber IS NOT NULL
AND ua.homepage IS NULL
AND sa.accessID IS NULL
```

Staff Members with User Accounts Set to All Tools

This query returns staff members who have the All Tools checkbox set on their user accounts.

Box A

```
INNER JOIN UserAccount ua ON ua.personID = individual.personID AND allModules = 1
```

Box B

```
No text necessary
```

Parents/Guardians of Current Year Students Who have no Parent Portal Account

This query returns parents/guardians of current year students district-wide. This includes staff members with a Campus Application/Campus Instruction user account who do not have a parent portal account. (Note: Parent/guardian relationship is indicated by marking the Guardian and Portal checkboxes on the Relationships screen.)

Box A

```
JOIN relatedpair rp on rp.personID1 = individual.personID
JOIN student s on s.personID = rp.personID2
LEFT JOIN useraccount ua on ua.personID = rp.personID1 and ua.homepage is not null and ua.homepage <>
'nav-wrapper/TeacherApp/control-center/home'
```

Box B

```
AND rp.guardian = 1
AND rp.portal = 1
AND s.activeYear = 1
AND (s.endDate >= GETDATE() or s.endDate is null)
GROUP BY individual.personID,  individual.lastName, individual.firstName
HAVING COUNT(userID) = 0
```

Teachers with no Lesson Plans for the

Current School Year

This query returns information on teachers who have not set up the Lesson Planner in the current school year.

Box A

```
