Tool Search: CalGrant GPA

The CalGrant GPA Verification Extract creates a file to upload CalGrant GPAs for 11th and 12th grade students into the CalGrant web app or to print a review document showing student names and their CalGrant GPA. Users can generate one of three reports:

- **CalGrant Verification** - lists what students are included in the upload file and their GPA. This should be generated first to review student GPA information.
- **CalGrant Non-SSN** - uploads the student's GPA information using their Student ID.
- **CalGrant Graduated** - uploads the graduated student's GPA information using their Student ID.

CalGrant GPA Verification Report

See the following articles for more information on GPA Calculations:

- [California GPA Calculations](#)
- [GPA Calculations in Campus](#)

Report Logic

The CalGrant GPA is calculated as the sum of unweighted GPA values divided by the sum of GPA

weights from courses posted on the student's transcript that:

- Were taken in the student's 10th and 11th grade year when generating for seniors (includes 12th grade year when generating the CalGrant Graduated option);
- Were taken in the student's 10th grade year when generating for juniors.
- Have the CalGrant checkbox marked on the course.

Any failing grade the student may have received is included in the CalGrant GPA calculation, unless there is another transcript course with the same course number from the same school marked as a Repeat Course. When there is a repeat course, only the grade from the repeated course is used in the GPA calculation as long as it was taken in the 10th or 11th grade. When there are multiple courses with the same course number but none of them are marked as a repeat course, all courses will be used in the calculation.

Up to four bonus points for 10th grade and four points for 11th grade are included (when they exist) in the calculation.

Courses that have no GPA value are not included in the calculation.

Report Editor

Field	Description
Permission Options	<p>Selection determines which students are included in the report.</p> <ul style="list-style-type: none"> • When the All Student option is selected, all students in the 12th grade are included when they meet the reporting population/logic requirements. • When the CalGrant OK Only option is selected, returns only those students who have the CalGrant OK checkbox marked on their enrollment records.
Report Options	<p>Selection determines which report format generates.</p> <ul style="list-style-type: none"> • CalGrant Verification - When all students is selected, generates a PDF format for 12th grade students who have an enrollment in the reporting calendar. When CalGrant OK is selected, only those students who have the CalGrant OK checkbox marked on their enrollment records are reported. • CalGrant Non-SSN - Allows the report to generate without having a student's Social Security number in the file. • CalGrant Graduated - Generates the Calgrant Non-SSN report for students who have graduated, with the following requirements: <ul style="list-style-type: none"> ◦ Student has an Enrollment End Status of 100, 104, 106, 108, 120. ◦ Student has a Graduation Year-End Status on the Graduation tool. ◦ Student has a Diploma Date entered on the Graduation tool.

Field	Description
Report Format	<p>Selection determines the output of the report. Different options are available depending on the selected report option.</p> <p>Use the State Format (Fixed Width) when uploading the information to the state. Use the other available formats (CSV, HTML, PDF) for data review and testing.</p>
Report Grades	<p>The report can be generated for either 11th or 12th grade students. Only one grade can be selected at a time.</p>
Contact Information	<p>When marked, the student's contact information reports (when data is populated) for the following fields:</p> <ul style="list-style-type: none"> • Mother Last Name (field 11) • Father Last Name (field 12) • Parent Phone Number (field 17) • Student Phone Number (field 18) • Student Email (field 19) • Parent Email (field 20) <p>This option is only available when generating the CalGrant Non-SSN Report Option.</p>
PO Box Address	<p>Reports the PO Box of students when a record of the PO Box exists.</p> <p>Reports the most recent address for the students marked as mailing when students do not have a PO Box Address.</p> <p>When there are multiple households, reports the address with the most recent start date between the households.</p> <p>This option is only available when generating the CalGrant Non-SSN Report Option.</p>
Protected Identity	<p>When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.</p> <p>This field is automatically selected.</p>
Ad hoc Filter	<p>When a filter is selected, only those students included on the filter report.</p>

Generate the Report

1. Select the desired **Permission Options** from the dropdown list.
 - **All Students** - returns all students in the 12th grade.
 - **CalGrant OK** - returns only those students who have the CalGrant OK checkbox marked on their [enrollment records](#).
2. Select the desired **Report Options** from the dropdown list:
3. Select the desired **Format** of the report from the dropdown list. Use the **State Format**

- (Fixed Width)** when uploading the information to the state. Use the other available formats (CSV, HTML, PDF, XML) for data review and testing.
4. Select the desired **Report Grade** level, either 11 or 12.
 5. When generating the CalGrant Non-SSN Report, mark the **Contact Information** to include the student's contact information in the report.
 6. When generating the CalGrant Non-SSN Report, mark the **PO Box Address** to include the student's PO Box information in the report.
 7. Mark the **Protected Identity** checkbox to report student's legal last name, legal first name, etc., when populated.
 8. When generating the CalGrant Graduated option, select an **Ad hoc Filter** that includes a list of the graduated students.
 9. Select the **Calendar** from which to report data. Only one calendar can be selected. Calendars can be selected by the active year, by the school, or by the year.
 10. Click the **Generate Report** button. The report displays in the desired format,
