Course Section Pass-Through Queries

Last Modified on 10/28/2026 10:45 am CDT

Path: Reporting > Ad Hoc Reporting > Filter Designer

The following queries relate to course and/or section information and require that the Course/Section radio button be selected on the main Filter Designer page.

> These sample queries are for example purposes only. They are a starting point for understanding how to use this tool. Requests to design, modify, or troubleshoot a Pass-Through Query are subject to a fee

Courses without Assigned Grading Tasks

This query returns courses to which a grading task has not yet been assigned.

Box A

```
LEFT OUTER JOIN gradingtaskcredit gtc ON gtc.courseID = course.courseID
AND gtc.calendarID = course.calendarID
```

Box B

```
AND gtc.taskCreditID IS NULL
```

Courses without Sections

This query returns courses to which a section has not yet been assigned.

Box A

```
LEFT OUTER JOIN [Section] s ON s.courseID = course.courseID
AND course.active = 1
LEFT OUTER JOIN Trial tr on tr.trialID = s.trialID AND tr.active = 1
```

Box B

```
AND s.sectionID IS NULL
```

Courses without Categories

This query returns a list of courses that are not assigned any categories.

Box A

```
LEFT JOIN lessonplangroupCourse lpc ON lpc.courseid = course.courseid
```

Box B

```
AND lpc.courseID is null
```

Courses without Grade Calc Options

This query returns a list of courses that are not assigned any grade calc options.

Box A

```
LEFT JOIN lessonplanpreferencecourse lpc ON lpc.courseid = course.courseid
```

Box B

```
AND lpc.courseID is null
```
