Example SASID Testing Demographics Editor

## Report Logic

- Reports all enrolled students, sorted by SASID, as of the extract Effective date.

- Reports one record per student when the student's
  - Enrollment Start Date is  $\leq$  extract Effective Date
  - Enrollment End Date is Null or  $>$  = extract Effective Date
- To report, the student must be enrolled into a calendar selected on the extract editor
- Only one record per student may report. If more than one enrollment is eligible, the enrollment with the highest enrollment ID reports.
- All enrollment types report.
  
- Students are NOT included if
  - their enrollment record is marked as State Exclude;
  - their enrollment record is marked as No Show; or
  - their Calendar of enrollment is marked as State Exclude.
  
- Students with a null SASID (Student State ID) will be reported so that the User is alerted that a student who is eligible for testing has not yet been “registered” and the student won’t fall through the cracks.

## Report Editor Fields

Field	Description
<b>Effective Date</b>	To report, students must have an enrollment that is active as of the Effective Date selected here. The default value is today’s date.
<b>Format</b>	<ul style="list-style-type: none"> <li>• State Format (Fixed Width)</li> <li>• CSV</li> <li>• HTML</li> </ul>
<b>Ad Hoc Filter</b>	Ad Hoc filters are available for narrowing report results.
<b>Grades</b>	Select the Grades to include in the report.
<b>Select Calendars</b>	Select the schools to include in the report.
<b>Generate Report Submit to Batch</b>	Users have the option of submitting the report request to the batch queue by clicking <b>Submit to Batch</b> instead of <b>Generate Report</b> . This process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the <a href="#">Batch Queue</a> article.
