The Paperless Assessment Reporting tools provide a new capability for LEAs to opt into an electronic student score reporting process for assessment administration. Participating LEAs no longer receive printed student score reports from ETC; instead, access is provided through their SIS vendor, which allows parents/guardians and school administrators to view the score reports.

The following tools are available for CAASPP Paperless Reporting:

- [CAASPP Configuration](#) (System Settings)
- [Assessment Reporting in Student Information](#) (Student)
- [Student California Paperless Reporting](#) (Campus Student/Campus Parent)

Read - View, select, and generate the Score Report.

Write - N/A

Add - N/A

Delete - N/A

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

Districts are sent a **Client Key** and a **Client Secret** from the Department of Education (CDE) and/or Education Testing Service (ETS). This information is hidden and encrypted when entered into the CAASPP Configuration editor. The key and secret connect the district server to the ETS Server, which then returns student scores. Data is not stored in Infinite Campus. The URL Authentication End Point is needed for the authentication process to work properly.

Infinite Campus does NOT have access to the Client Key, the Client Secret, or to the ETS Server.

DO NOT DELETE the CAASPP configuration.
