Tool Search: Counseling Team Members

The Team Members tool lists the individuals who are part of a student's education team, including counselors, family and service providers. The Role assigned to team members indicates their involvement in the student's team. Members can be added through finding an existing person and linking them or by entering a person without consulting Census.

In order for a staff member's name to print on reports, the staff member must have at least an email address or phone number entered on their Demographics tab. See the [Demographics](#) tool document for information on entering personal contact information.

## Find and Link Team Members

The **Find and Link New Team Members** tool allows user to select new team members from a limited list based on likely candidates, such as those connected to the student in Census, the student's teachers, and other staff members. Existing individuals are then linked to the student and their information provided. See the following table for a description of the fields in this editor.

One new team member can be added at a time. For example, when a selection is made in the Census dropdown, no other selections can be made.

Once the desired individual is selected, click **Add Team Member** to add the individual to the student's special education team. Contact information populates from Census and the Start Date of the team membership defaults to the current date. For an explanation of the fields that display for a team member, see the [Team Member Fields](#) table below.

## Add Team Members with Find and Link New Team Member

1. Select the **Find and Link New Team Member** button. The **Find New Team Member** editor displays.
2. Select the desired individual from the appropriate dropdown list.
3. Assign that individual a **Caseload Role**.
4. Click the **Add Team Member** button. The person displays in the **Team Member Editor**.

Selecting the newly added individual displays that person's team member detail, noting when the individual was added as a team member to that student, the assigned role, specific qualifications or comments. Certain information in this record is pulled from saved Census data. Use the **Refresh Census Information** button to pull updated information from the Identities tool. Edits can be made to this detail record to add qualifications and comments and to designate the Agency of the team member or to mark them as the Service Coordinator.

## Enter New Team Members

Individuals who are not yet entered into Census or who do not have a District Assignment record can be added to a student's team by entering information about the team member. Team Members added in this way only exist as a record for this student; they are not added to Census and are not available to add to any other student's teams.

**Team Member Detail**  
 Note: Team Members that are already tracked in the system should be added using the 'Find & Link new Team Member' tool. Team Members added through this interface will not appear in that user's caseload.

## Add New Team Members with Enter New Team Members

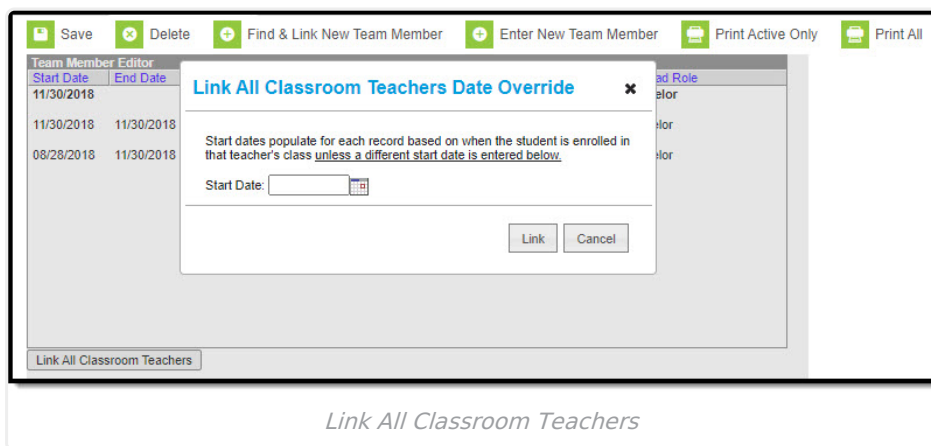

1. Select the **Enter New Team Member** button. A **Team Member Detail** editor displays.
2. Enter all required fields.
3. Optional: enter all desired fields as defined above.
4. Click the **Save** button when finished. The new member displays in the Team Member Editor.

## Link All Classroom Teachers

The **Link All Classroom Teachers** button adds all of the student's teachers to their team. This option adds each [Primary Teacher](#) assigned to a course section in which the student is scheduled to view the student's education plan. The student's Rostered Dates are used to pull teachers associated with those courses, not the teacher's active Start and End Dates.

The **Link All Classroom Teacher Date Override** dialog displays. Start dates populate for each record based on when the student is enrolled in that teacher's class unless a different start date is entered. Entering a date pulls in teachers with the date entered as the start date.

The option to Link All Classroom Teachers only displays when the [Special Ed Preference](#) Enable Team Member List to Populate from Classroom Teachers is set to Yes.

Start and End dates populate for each teacher's record based on when the student is enrolled in that teacher's class. Membership records for teachers in future sections are entered as inactive memberships.

## Print

A PDF of all or just active team members can be printed by selecting the **Print Active Only** or **Print All** buttons.

To print a list of all active team members, click the **Print Active Only** button. To print all team members, including inactive ones, click the **Print All** button. The list of team members prints in PDF format, sorted by Active and Inactive, with the Name, Title and Contact Information for the team members.

When a team member's contact option is marked as Private on the [Demographics](#) tool, that value is hidden from view and does not print.

The screenshot shows the Infinite Campus interface with the 'Team Members' tab selected. The 'Print Active Only' and 'Print All' buttons are highlighted with a red box. A red arrow points from the 'Print Active Only' button to the 'Active Team Members' section of the printed output.
