

PIMS Incident Offender Disciplinary Action Template (Pennsylvania)

Last Modified on 06/11/2026 10:16 am CDT

Tool Search: PIMS Extracts

The Incident Offender Disciplinary Action Template is used to track disciplinary sanctions as well as referral to or participation in remedial programs.

See the [PIMS Reporting](#) article for additional PIMS Reporting information.

Report Logic

Offenders with a Disciplinary Action Code between S1-S10 report. If the offender is referred to or participating in a remedial program, multiple records will report for each additional Disciplinary Action Code between R1-R9.

Behavior incidents must have a behavior resolution with a state code in order to report. If no state code is assigned to the resolution, the Disciplinary Action Code reports blank.

The Behavior Role must be an Offender.

Only behavior incidents that are marked as Submitted, In Progress or Complete report. Behavior incidents that are in Draft status do not report.

Reports all matching students from that school for the selected calendar. Students report even if they are enrolled in a different calendar and the calendar in which they are enrolled is not selected on the extract editor. Reports all associated behavior data from an incident that happened in a selected calendar. Incident and incident related reports are not included in the report population if the calendar selected in the extract editor is not the calendar in which the incident was documented. Incidents and students involved in incidents do not report in calendars marked as Exclude (System Administration > Calendar > Calendar > Exclude).

Student enrollments marked as [State Exclude](#) do not report.

Generate the Incident Offender Disciplinary Template

1. Select **Incident Offender Disciplinary Template** from the **Extract Type** from the dropdown list.
2. Enter the **Start Date** of the extract in *mmddyy* format or use the calendar icon to select a date.
3. Enter the **Effective Date** of the extract in *mmddyy* format or use the calendar icon to select a date.
4. Select the **Format** of the extract.
5. If desired, select an **Ad hoc Filter** to return only those students included in that filter.
6. Select the appropriate **Calendar(s)** from which to include data on the extract.

7. Click the **Generate Extract** button or the **Submit to Batch** button, if available. The extract displays in the selected format.
