This report extracts data for the HS Government and HS MISA PreID extract. The High School Assessments (HSA) are end-of-course tests in Science and Government. All local educational agencies (LEA) submit Pretest and Correction Files. The Pretest File identifies all students who qualify to take the HS Government and HS MISA in a particular content area, qualify for the administration, and are in the identified Test format (paper or electronic). The Pretest File is used to register students for online or paper testing and to create the preprint file that is used to create student labels for test answer sheets delivered to each school.

HS Government and HS MISA PreID Extract Editor

Report Logic

- An extract that meets Maryland’s requirements for the HSA Pre-Test for Biology and Government must exist.
- Student must have an active enrollment (any enrollment type) that meets all of the following requirements.
 - Enrollment is in a calendar selected in extract editor.
 - Enrollment is tied to a state grade between 04 and 12.
 - Student does NOT have an active certificate tracked program as of the report Effective Date.
 - If student has multiple enrollments use the most recent primary enrollment, which meets the previous requirements.
 - If no primary enrollment exists, Campus uses the most recent enrollment which meets the previous requirements.
- Students are NOT included if
 - their enrollment record is marked as State Exclude.
 - their Grade Level of enrollment is marked as State Exclude.
 - their Calendar of enrollment is marked as State Exclude.
