State Grade Level Code

The Grade Level Code indicates the current grade level of the student.

Be sure that grade levels are properly mapped to the proper state codes.

It is recommended that separate calendars be created for any grade level with differing Start/End Dates.

Schedule Structure

Schedule Structures provide a means of allowing different groups of students (by grade level, by different terms, by different day layout) to have a unique layout for their learning day. They allow the school calendars to have multiple schedules in one calendar, instead of having one calendar with each type of schedule. This tab does not have any fields that are specific to the state of Maine. Please see the [Schedule Structure](#) article for more information.

Do **NOT** create multiple Schedule Structures within a calendar. Instead, create multiple, unique calendars for each Schedule Structure.

Terms

Calendar Terms list the type of calendar structure the school has - trimesters, quarters, etc. Also available on this tab are the start and end dates of the terms. This tab does not have any fields that are specific to the state of Maine. Please see the [Terms](#) article for more information.

Periods

The Periods tab lists the names and the times of the periods meeting throughout a school day. The editor displays the period information based on the school selected in the Campus toolbar. This tab does not have any fields that are specific to the state of Maine. Please see the [Periods](#) article for more information.

Notes:

Users may create as many period schedules for as many different scheduled days as the district offers.

Days

The Days tab provides a calendar type of view for all of the days in the school calendar, determined by the year, school and calendar selected in the Campus toolbar. The Days tab also displays which Period Schedules are assigned to a particular day, if any special events are assigned to a day, or if a particular day is not recording attendance, is not an instruction day, or is not a school day. This tab does not have any fields that are specific to the state of Maine. Please see the [Days](#) article for more information.

Overrides

Calendar overrides apply to the programs a school offers to students. Overrides may be set for a person or on a household address. Person overrides take precedence over the household address override. A student may be denied enrollment to a school if the student does not live at an address within the school boundary. In this case, the student would need to obtain a person override to attend the school based on a specific curriculum program or administrative decision. This tab does not have any fields that are specific to the state of Maine. Please see the [Overrides](#) article for more information.

Calendar GPA

The Calendar GPA tab lists all available Custom GPA Calculation (name and type) that may be chosen for use within that calendar. They are ordered by the sequence entered for that calculation on the [GPA Calculation](#) tab. This tab does not have any fields that are specific to the state of Maine. Please see the [GPA Calculation](#) article for more information.
