Tool Search: SD Extract

This information is current as of the Campus.2527 (June 2025) release.

The Enrollments Extract collects student data stored on the enrollments tab. To generate this extract, select **Enrollments** from the Extract Type field on the [SD Extract](#) editor. The report lists one record for each student enrollment.

The screenshot shows the 'SD Extract' tool interface. The 'Extract Options' section has 'Extract Type' set to 'Enrollments' and 'Format' set to 'State Format(CSV)'. The 'Generate Extract' button is visible. The 'Select Calendars' section asks 'Which calendar(s) would you like to include in the report?' with options: 'active year' (selected), 'list by school', and 'list by year'. A dropdown menu is open showing a list of schools for the '23-24' school year, including C.C. Lee Elementary, Central High School, Holgate Middle School, JDC, Lincoln Elementary, May Overby Elementary, Mike Miller Elementary, New Beginnings, O.M. Tiffany Elementary, Priv Aberdeen Christian, and Priv Head Start.
