Demographics

Tool Search: Census

The Census module tracks every person entry in Infinite Campus - parents, staff, students, emergency contacts, doctors, etc. Demographic data is used throughout Campus, utilizing historic details of each person. Some fields in the Census module are unique to each state. Other fields in the Census module do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the Demographics article.
