The FRYSC Individual Intervention Rosters extract provides student-level detailed information about using FRYSC individual interventions in a given district.

Report Logic

- Only students who participated in an FRYSC individual intervention within the FRYSC center, calendar, or Intervention Category and Date Range entered on the extract editor are included.
- Reported data is limited to data from FRYSC Centers in calendars for which the user has Calendar Rights to access.
- When the **Exclude Cross-Site Data** checkbox is marked, the report does not include cross-site homeroom data. Cross-site must be enabled at the district level for this checkbox to display. This checkbox defaults to marked.

Generate the Extract

1. Enter the **Date Range**. Only FRYSC Individual Interventions and Group Programs active within the date range entered are reported.

2. Select a **Report Option**:
 - **FRYSC**: The report only includes students with an FRYSC individual intervention in the selected FRYSC center(s).
 - **Calendar**: The report only includes students with an FRYSC individual intervention in the selected calendar(s).
 - **Intervention Category**: The report only includes students with an FRYSC individual intervention in the selected Intervention Categories.
3. When applicable, mark the **Exclude Cross-Site Data** checkbox. This checkbox defaults to marked. When marked, the report does not include cross-site homeroom data. Cross-site must be enabled at the district level for this checkbox to display.
4. Select which data is included in the report:
 1. Select a **FRYSC Center(s)** if the FRYSC Report Option is selected
 2. Select a **Calendar(s)** if the Calendar Report Option is selected.
 3. Select an **Intervention Category** if the Intervention Category Report Option is selected.
5. Filter data by selecting an **Ad hoc Filter** (optional).
6. Select how the report will be generated:
 - **Generate Report**: The report generates immediately and displays in a new window in the designated format.
 - **Submit to Batch**: The report can be scheduled for when it generates and is sent to the [Batch Queue](#) tool.
